STRATEGIC PLAN METHODOLOGY
The strategic plan for Region One is guided by a local, grassroots approach to reaching the least likely to respond populations in the 17-County region. Our approach to developing the strategic plan:

- Data-driven: target the HTC populations and the communities they live in
- Community-centered: connecting with local community leaders and organizations
- Asset focused: build on resources and infrastructure existing in each county
OVERARCHING STRATEGIES

**Strategy 1:** Starting with what works locally

**Strategy 2:** Allocate resources, distributed through the Funding Consortium Partners, to support census outreach in HTC communities throughout Region One

**Strategy 3:** Regional approach for greater impact on regional issues

**Strategy 4:** Align resources, data, and community-driven input

Importance of Language Access

- Nearly 20% of California’s population has limited English proficiency (LEP).
- More than three-fourths (76%) of Asian Americans speak a language other than English. 50% of Punjabi language speakers often speak English less than ‘very well’, far higher than most other Asian American categories. Historically, areas with low rates of English proficiency have been undercounted.
Communicate the Meaning, not just Information

- Translations for various languages are mandated by the state Census Office’s Language & Communications Access Plan. As they are only now coming into effect, there is not an ecosystem developed of proper language translators. Improper translation of materials can lead to confusion and lower participation.

- Often when information is translated, the meaning is lost.
Snapshot of the Punjabi Community

- Punjabi-Americans form one of the largest sub-sections of the “Asian-Indian” Census designation, and are estimated to comprise nearly 60% (approximately 300,000) of the total 528,176 Asian-Indians living in California.

- Punjabi is the 10th largest linguistic group in California, 3rd most in Sutter County.

- While a number of Punjabis work in health, technology, and other professional sectors, in northern California they largely come from blue-collar families
  - Farmworkers & farmers
  - Transportation – truck drivers
  - Factory workers
Outreach to the Punjabi Community

- Punjabi radio stations (Punjabi Radio USA)
- Punjabi television
- The Gurdwara (Sikh place of worship) as a Census hub
- Punjabi mailers, yards signs, and print material (fliers, posters, etc)
- Social media advertising
  - Facebook
  - WhatsApp
Jakara Movement as a community partner

We have had a strong track record within the Punjabi Sikh community for the last 20 years. Our year-round commitment creates bonds of trust between our staff, our organization, and communities we serve. Jakara Movement has gained the trust of the Punjabi community through the grassroots work, activism, and advocacy initiatives we have led. We have been recognized as the primary Sikh organization in California that builds community power and advocates for the Punjabi community.
Census-specific work

Jakara Movement is engaging with on-the-ground Census education and advocacy which includes community events, forums, town-hall discussions, phone banks, door-to-door campaigns, build partnerships with local businesses, host events and focus groups at local Gurdwaras, initiate talk-show discussions on our Punjabi radio, write articles for Punjabi print media, and utilize our trucking community to help spread the word about the Census.

Strategies to engage language-specific communities

1. Find the leaders in the community – elder and younger (trusted messengers)
2. Engage the community institutions
3. Partner with the media messengers
4. Go to community events
