III. California Census 101

Why is the 2020 Census important?

- Every Californian counts: The Census counts every person living in the U.S. once, only once, and in the right place.
- It’s about fair representation: Every 10 years, the results of the Census are used to reapportion the House of Representatives, determining how many seats each state gets.
- It’s your civic duty: Completing the Census is mandatory and it’s a way to participate in our democracy and say “My story counts!”
- It’s about redistricting: After each decade’s Census, state officials redraw the boundaries of the congressional and state legislative districts in their states to account for population shifts.
- You are the expert – your responses help: Your ideas are the best way to make sure everyone in your community gets counted.
- Your data are confidential: Federal law protects your Census responses. Your answers can only be used to produce statistics.

How is the Census data used?

- To advocate more resources for community members.
- To ensure public safety and plan new schools and hospitals.
- To decide where to open companies and businesses, which create jobs.
- By law, the U.S. Census Bureau cannot share the data with immigration or law enforcement agencies or allow it to determine eligibility for government benefits.

How can you make a difference now?

- Use social media to spread the message
- Incorporate messaging into community events and meetings
