Strategy to Implementation

Patricia Vazquez-Topete, California Complete Count – Census 2020
Outreach/Questionnaire Assistance Centers

• How will Counties, Regional ACBOs and Statewide CBOs coordinate QACs and QAKs?
• What is the difference between QAC, QAK and CAK?
• Why is it important to have staff at these site locations?
Why Language and Communication Access?

- Equal and meaningful access for limited English proficient individuals and people with disabilities in:
  - Their primary language
  - Accessible formats
- The majority of HTC, not just LEP, will need assistance in non-English primary language. Appropriate and correct language, and cultural sensitivity are fundamental to earning the trust of our HTC.
- Goal is to ensure we reach a median of 91.3% LEPs in each county with LACAP approach.
Communication and Public Relations

• The statewide contractor will develop and implement a statewide strategy that utilizes, amplifies, and is informed by the U.S. Census Bureau, community-based organizations, local governments, and ethnic media partners.

• Campaign has been designed to reach all 10 geographic regions

• State contractor will be required to meet regularly with counties, Statewide CBOs, and ACBOs to ensure messaging is hitting the right target.

• Paid media should be included in strategic plans submitted by counties, ACBO and Statewide community-based organizations to the state, and tactics will be coordinated to ensure efforts are not duplicated.
