

California Complete Count – Census 2020

Region 1 Snapshot

Region 1 is the largest in California with 17 counties extending from Sacramento to the Oregon border. Of the 17 counties, ten have opted-in to serve as outreach contractors. Seven are being managed through the regional Administrative Community-Based Organization (ACBO), Sacramento Region Community Foundation. The region includes hardest-to-count census tracts in urban areas with a large percentage of limited English-proficient (LEP) populations, multifamily housing, immigrants, refugees and other vulnerable populations. Region 1 also contains many rural areas that have few community-based organizations and rely on social service agencies. The rural areas have low broadband access and isolated populations that are hardest to reach. The region is an agriculturally rich area with a large

farmworker population. The area is also home to Native American and tribal populations. Areas such as Butte and Shasta counties have been devastated by recent wildfires. The map above displays the Hard-to-Count (CA-HTC) Index based on multiple demographic, housing and socioeconomic variables that correlate to an area that is difficult to enumerate. Census tracts with a higher CA-HTC index are likely to pose significant challenges to count in 2020, while tracts with lower indexes should be easier.

The ACBO is collaborating with its Funding Consortium Partners and Multi-County CBO Partners to develop a robust and inclusive outreach approach throughout the region. The ACBO and its partners are committed to outreach that is community-driven with authentic engagement. Planning is informed by the voices of local community partners who represent the HTC and vulnerable populations.
