Research

• Analyzed 20+ bodies of research to inform foundational message development.

• Sources include, but not limited to:
  • Pew Research Center: Most View Census Positively, But Some Have Doubts
  • Public Policy Institute of California: 2020 Census-Counting California’s Homeless Population (CA)
  • Public Policy Institute of California Statewide Survey (CA)
  • California Calls / The California Endowment: Census Message Research with Black Populations in California (CA)
  • California Civil Rights Initiative: Latino Census Messaging (CA)
  • Advancing Justice: Queering the Census
Research

• The topline takeaway across all HTC groups is a low level of awareness of the Census and its purpose.

• In many cases, those polled didn’t know what the Census was and/or had never participated in one.

• This lack of awareness is reinforced by recent research, commissioned by The California Endowment, that shows that the Census form itself is one of the most motivating ‘messages.’
Research

• The research identified additional common themes consistent across HTC communities.

• **Housing, homelessness and healthcare** are the top issues for HTC communities across California.

• Lack of information about the Census is a key factor in low response rates, and increasing awareness increases motivation to participate.
Research

• Communities are motivated by diverse messages about the Census, ranging from:
  o Services
  o Funding
  o Civic duty
  o Accountability
  o Political representation

• One primary factor causing reluctance to participate is a concern over privacy.

Group Quarters and Transitory Locations Workshop

The Los Angeles Regional Census Center in partnership with the State of California will be hosting a GQ/TL Workshop

Adley Kloth, the Los Angeles Regional Census Center Area Manager over Group Quarters and Transitory Locations Enumeration, will be conducting a 1.5 hour Area-wide workshop to local stakeholders. This workshop will provide direction on how individuals living in group quarters and transitory locations will be enumerated during the 2020 Census (with special emphasis on how we are counting those experiencing homelessness).

Who should attend:
This two-hour workshop is for county and city staff, as well as community agencies, that are knowledgeable about the unique challenges faced by individuals experiencing homelessness. Stakeholders who plan to assist the US Census Bureau with identifying group quarters, outdoor locations, transitory locations, and places where the unhoused individuals receive services (Soup Kitchens, Mobile Food Vans, Shelters, etc.) should also attend.

DATE: October 8, 2019
There will be two sessions:
Session 1 - 10 am-12pm
Session 2 - 1pm-3pm

Resources for Partners

• Several 2020 Census outreach materials are now available on 2020census.gov. Find downloadable posters, handouts, toolkits, and other resources that you can share with partners.

• Visit 2020census.gov/partners and select Promotional Materials to view what is available, including in-language materials. Use this page as a resource, as we continue to add materials.

• Encourage your network to sign up for our email list for the latest news and updates relevant to partners. Completing the Join Us form will sign them up for our email list.
**Internet Choice:**

**Letter Invitation and Paper Questionnaire**
- Areas that are less likely to respond online will receive a paper questionnaire along with their invitation. The invitation will also include information about how to respond online or by phone.

**Internet First:**

**Letter Invitation**
- Most areas of the country are likely to respond online, so most households will receive a letter asking you to go online to complete the census questionnaire.

- We plan on working with the U.S. Postal Service to stagger the delivery of these invitations over several days. This way we can spread out the number of users responding online, and we'll be able to serve you better if you need help over the phone.
