FINAL REPORT TEMPLATE

General Information

Date of report	November 13, 2020
Organization / Entity	San Bernardino County Superintendent of Schools Contract # CCC-18-60021
Responsible Person / Title	Barbara J. Lane, ELA/ELD, History Curriculum Coordinator
Contact Person / Title	Barbara Alejandre, Chief Intergovernmental Relations Officer
Address	601 North E Street, San Bernardino, CA 92415
Email / Phone	Barbara.Alejandre@sbcss.net ; 909.386.2947

Narrative Report

1) List your goal(s) and objectives as it appears in your strategic and implementation plan. What and how did you revise the objectives due to COVID-19 and the US Census Bureau's operational adjustments?

The initial goals and objectives of the San Bernardino County Superintendent of Schools (SBCSS) as it appears in our strategic and implementation plan were to:

- Commit efforts to Census 2020 education and outreach activities to K-12 stakeholders and engage K-12 populations to motivate and activate students, parents, and families in the Census 2020.
 - l. SBCSS will promote and work with school districts to conduct a Census 2020 Week (March 23-April 9, 2020) at their school sites/campuses throughout the county. SBCSS identified March 30-April 3, 2020, as the best timeframe to conduct a Census 2020 Week due to most school districts on spring break during the week of April 4-9, 2020.
- SBCSS will promote Census 2020 education and outreach efforts by leveraging existing networks, such as the Content, Literacy, Inquiry, Citizenship (CLIC) Project, our Countywide Family Engagement Network (FEN), and a multitude of many other students, family, and educator programs and events.
- SBCSS will provide a trusted environment for parents and families and the public to complete the Census 2020 questionnaire at three of our regional administrative sites. Each regional location in the Desert/Mountain, East Valley, and West End area has several hard-to-count locations within proximity of the kiosks. Hours of operations from 8:00 a.m. to 4:00 p.m., Monday through Friday at the following sites:
 - o Roy C Hill Education Center, 601 North E Street, San Bernardino, CA 92415

- Desert/Mountain Educational Service Center, 17800 Highway 18, Apple Valley, CA 92307
- West End Educational Service Center, 8265 Aspen Avenue, Rancho Cucamonga, CA 91730
- SBCSS will use SwORD Tier II data for our outreach efforts to identify which schools are located near Census tracts with a(n):
 - Hard-to-Count (HTC) index greater than 46,
 - High Limited English-speaking households greater than 6.9 percent, which is above the countywide average, and
 - Income below 150 percent of the poverty level greater than 29.4 percent which is above the countywide average.
- Collaborate with additional networks to include English Language Development (ELD), Math, Homeless Education, Foster Youth, and Advancement Via Individual Determination (AVID) for targeted outreach efforts.
- An invitation to attend planned activities/events extended to members of the Inland Empire Complete Count Committee/Subcommittee.

In September 2019, SBCSS sent two representatives to the Train-the-Trainer Census Curriculum trainings to help support our teachers with the implementation of the curriculum in the classroom. In addition, the writers of the curricula trained 16 San Bernardino County and Riverside County teachers and administrators to further support the implementation. During the September 28, Family and Community Engagement Summit, where approximately 500 attendees participated in the welcome provided by County Superintendent Ted Alejandre who stressed the importance of a complete count. Families, caregivers, and children gathered information, flyers, resources, asked questions, and viewed videos in English and Spanish at the hosted resource booth. Additionally, participants attended a Census 2020 workshop, co-facilitated by U.S. Census Bureau Representative, Lupe Camacho.

Beginning October 2019, SBCSS launched additional Census 2020 promotional efforts to help raise awareness, provide education, and outreach activities to K-12 stakeholders, and engage the K-12 population by activating a dedicated page on the SBCSS website. The website contained Census 2020 resources, collateral, and a video message from our County Superintendent, Ted Alejandre, on the importance of a complete count, its impact on Congressional representation, and a potential loss of approximately 19.4 billion dollars in federal funding with a potential undercount. The San Bernardino County Board of Education adopted the Census 2020 Resolution in support of the importance of the U.S. Census and commitment to help ensure a complete, fair, and accurate count of all Californians with a focus on hardest-to-count individuals. Also, SBCSS designed a display case for visitors at the Roy C Hill Education Center which included various videos about the Census in English and Spanish and posted information on how to complete the Census.

In February 2020, in partnership with the support of our local labor union organizations which included the California School Employees Association Chapter 633, San Bernardino County Teachers Association, and Teamsters Local 1932, SBCSS sent a letter and a San Bernardino County "I Count" Census 2020 custom-made button to all SBCSS staff to encourage them to support and promote the Census outreach efforts. In

addition, several Census 2020 presentations were held throughout the county at the following meetings:

- San Bernardino County Personnel Administrators' Network Meeting (33 School Districts)
- San Bernardino County District Superintendents' Meeting (33 School Districts, 5 Community Colleges, and 2 Regional Occupational Programs)
- SBCSS Full Cabinet, Management and Confidential Team, and Classified Team Meetings
- Family Engagement Network
- John Almarode Teacher Training
- CLIC Region 10 Meeting (SBCSS purchased 160 books, "Clarity for Learning," to support teachers, coaches, teachers on assignment, administrators, and paraeducators with the implementation of the Census 2020 curriculum in grades 5, 8, 11, and 12. Note: SBCSS offered and covered substitute costs up to \$125 per teacher registered.)

SBCSS, in partnership with the California Census 2020 Office – Data and Geographic Information System (GIS) Mapping, identified 142 schools countywide which were located within or near a census tract meeting the Education Outreach Plan criteria of a (1) HTC index greater than 46, (2) limited English-speaking households greater than 6.9 percent (county average), and (3) households with income below 150 percent of the poverty level greater than 29.4 percent (county average). Promotional kits were designed to create awareness and inform students, families, caregivers, educators, and surrounding communities about the importance of a complete count to ensure the state of California receives its fair share of federal funding. The kit contained custom-designed buttons, a 3x6 custom-designed banner in English and Spanish, pencils, erasers, rulers, printed California For All flyers, a printed California School-Based Outreach document, and a printed set of inquiry-based Census curriculum for grades 5, 8, 11, and 12. To further expand our outreach efforts, during the month of February, SBCSS provided promotional kits to 30 non-HTC sites which included 21 SBCSS-operated schools throughout the county and nine district-operated school sites for a total of 172 sites in San Bernardino County. Schools were asked to do the following:

- Display the Census 2020 vinyl banners in a high traffic area (e.g. school fence)
Note: SBCSS displayed banners at each of our administrative sites
- Disseminate Census 2020 promotional items to students and staff
- Hold a Census 2020 Week on campus
- Share information from the "2020 Census: A Guide for California's School-Based Outreach" toolkit with staff to inform and promote Census 2020 Week with students, families, and caregivers
- Encourage teachers for grades 5, 8, 11, and 12 to:
 - Implement the inquiry-based Census self-contained modules (printed materials included and a link to access materials online)
 - Attend the inquiry-based Census Module training on March 23 from 8:30 a.m. to 2:30 p.m.

Due to the global pandemic of the novel coronavirus (COVID-19), beginning March 15 through the end of the 2019-20 school year, all 33 school districts within the county had closed their school sites. SBCSS had to revise the goals and objectives outlined in our initial plan to support all aspects of the Census 2020 work for the remainder of the contract. For example, Census 2020 Week, which was scheduled to be held March 30 - April 3, had included onsite activities for staff and students. However, social media was deployed as a primary outreach strategy instead to encourage students throughout San Bernardino County to partake in their civic duty by spreading the importance of the Census through campaign poster creations, infographics, participating in live chat sessions with their teacher, and sharing the important messaging through various social media sites (see page 11). Although teachers were unable to attend the inquiry-based Census module training on March 23, the Census curriculum was offered to students remotely.

Also due to COVID-19 concerns, the launch of the Questionnaire Assistance Kiosks (QAKs) was not activated as SBCSS closed all offices including the QAK locations referenced in our goals and objectives to provide the public a site near HTC Census tracks to complete the Census from March 12 - April 27. Although this objective and goal had not been met, SBCSS had completed all preparations including collaborating with our internal Technology Services Branch to ensure a safe and secure laptop connection to the Census 2020 survey, purchasing kiosk desks with side barriers providing privacy, preparing Census 2020 branded feathered flags and sandwich boards ready for display, and planning for the utilization of the QAK in a Box issued by the CA Census Office at our regional QAK locations.

SBCSS continued to participate in the Inland Empire Complete Count Education, Recruitment, and Training Subcommittee virtual meetings, the CA Census Region 7: Regional Calls, and the County Office of Education Zoom meetings. These forums allowed SBCSS to keep apprised of the innovative work taking place to support the Census in response to COVID-19 and informed our revised social media outreach efforts.

Additionally, on July 17, 2020, the California Department of Public Health (CDPH) released comprehensive guidance on the safe reopening of schools for the 2020-21 academic year requiring the implementation of a distance learning model. While there had been additional guidance released by state and county health officials that provided a waiver for elementary schools wanting to reopen school campuses with in-person instruction as well as campuses wishing to serve small cohorts of students on campus, additional outreach opportunities were not possible before the September 30 deadline.

Because of our existing partnerships with various stakeholders, SBCSS partnered with Families in Schools, a nonprofit serving Los Angeles County, to launch a bi-county #AllChildrenCount and #SBCSSCounts video challenge from July 28, 2020, through September 3, 2020. The video challenge asked participants to post a video of why the 2020 Census matters to them and why it's crucial to get counted. Both organizations collaborated on the social media campaign which including and providing information to the public on the importance of completing the Census, what our communities

stand to lose and offering step-by-step instructions on how to take it. The video and all electronic collateral were produced in English and Spanish (see page 11).

In September, SBCSS launched another Census 2020 Promotional Kit using the GIS data shared by the Census 2020 Regional Program Manager – Southern California Lead, Quintilia Avila, who shared the latest self-response datasheets identifying up-to-date HTC areas. SBCSS deployed Census 2020 tote bags, hand-sanitizers, face masks, and California For All Census flyers that were dispersed at existing Grab 'n' Go universal meal distribution sites near high HTC areas to promote the Census. Another example of how SBCSS maximized opportunities for outreach and dissemination of additional Census 2020 promotional items during the NRFU stage included a partnership with Assembly Member Eloise Gómez Reyes and the Community Action Partnership of San Bernardino to provide thousands of Census 2020 promotional items, such as rulers and erasers to be distributed at their Census 2020 Food and School Supplies giveaway event held at San Bernardino Valley College (see page 11).

To continue sharing information about the Census, SBCSS posted various virtual events, live readings, and infographics via social media sites until the last day Census would be counted, October 15, 2020 (see page 11). Although COVID-19 altered some of our original plans, SBCSS was able to pivot efforts using a modified approach.

2) Reflecting on your own operations and outreach strategies throughout the campaign, please provide a response with specific examples for the following questions. Please also indicate which timeframe you are referring to in your response (i.e., education, NRFU period).

Contracted partner's operations

SBCSS did not contract with other partners; however, when the opportunity to support the K-12 population arose, SBCSS did participate. For example, during the education period, our office attended Congressman Pete Aguilar's Census 2020 briefing municipalities in both Riverside and San Bernardino Counties in December 2019, which convened at our Dorothy Ingraham Learning Center administrative site. At this convening, two local community-based organizations in attendance were contracted partners with San Bernardino County government, the Warehouse Workers Resource Center, and El Sol, who shared information and raised awareness on their planned Census activities.

As mentioned in Question 1, SBCSS had collaborated with Families in Schools, a nonprofit organization, and a subcontracted partner with Los Angeles County, to launch a Census 2020 Video Challenge on Social Media. This effort was done during the NRFU stage (July).

What worked well operationally?

In San Bernardino County, we have the Countywide Vision with a regional goal of supporting every child from cradle to career. This effort has been key in engaging all sectors through informed decision-making, and a collective impact approach to serving our most vulnerable students and families. Our county has been on the cutting

edge of developing forward-thinking collective approaches and broad range solutions which made it feasible operationally to target outreach in the HTC K-12 populations served within the county through the various established networks.

This allowed reach into the school districts and school sites, reducing the duplication of operational efforts promoting the importance of a complete count working within our respective boundaries. Through these networks, relationships, and partnerships, SBCSS was able to leverage existing opportunities, such as:

- Making presentations at existing meetings to communicate Census 2020 information and the importance of a complete count to a variety of stakeholders,
- Partnering with school districts and SBCSS operated school sites to provide Census Promotional Kits to schools (pre-COVID-19) and existing 'Grab 'n' Go' meal distribution sites (post-COVID-19),
- Launching the Census 2020 Video Challenge, and
- Partnering with Assembly Member Eloise Gómez Reyes and other agencies to provide Census 2020 items during their Food and School Supplies distribution.

Another notable mention related to what worked well operationally was the tremendous in-kind support our organization provided to the Education Support Services and Intergovernmental Relations department to fulfill the goals and objectives in our outreach plan. The SBCSS Business Services Branch was essential to our outreach efforts by awarding the Census 2020 budget with the full funding our office was contracted to receive for this project. This allowed us to make the appropriate expenditures needed for outreach efforts before funding was received and processing all expenditures. As we worked through the self-response deadline changes, SBCSS staff assembled hundreds of promotional kits for distribution to districts and was critical to operations. Our Procurement and Warehouse Services department worked expeditiously to approve requisitions to acquire Census products and coordinating the delivery of the promotional kits to school districts and school sites, hanging Census banners at administrative sites, and preparing the setup of QAKs. Also, our Technology Services Branch was instrumental in ensuring a secure and trusted internet connection for members of the public to complete the Census. The Communications and Multi-Media Services departments were vital to our social media campaign alerts and San Bernardino County custom-designed Census products. Our Education Support Services Branch worked vigorously with teachers to implement and support the Census curriculum. The Alliance for Education department promoted the 'Be A Census Hero – Census 2020 Matters' and 'Be Counted – Census 2020 Matters' Twitter campaigns to encourage students to make a positive impact on their future during remote learning. This internal operational support was monumental to every aspect of SBCSS's outreach efforts. Additionally, implementing an outreach plan informed and driven by data to identify the HTC areas within our county helped focus our funding to maximize outreach efforts given our geographic size.

Engaging and participating in the Inland Empire Complete Count Education, Training, and Recruitment Subcommittee (IECC-ETR), the Region 7 Committee, and the County Office of Education meetings were beneficial operationally as it allowed our office to keep a pulse on activities taking place in various regions of the state, county, and

municipalities which helped us complement and not duplicate efforts. Also, we appreciated the opportunity to extend the contract with the Census 2020 Office to conduct additional efforts was beneficial to allow additional time for outreach needed in the HTC areas within our county, especially amid school closures.

What hindered the operations?

Operations were hindered by the COVID-19 pandemic. Our initial plan was to be able to raise awareness by physically attending various events, meetings, and workshops. Even though we were able to meet many of our goals and objectives identified in the Education Outreach Plan, the use of social media became our new platform and substitute to fulfill our education and outreach efforts. Providing Census Promotional Kits to students at school sites turned into providing items during universal meal distribution near HTC Census tracks. All in-person activities such as the activation of our three regional QAK's, the inquiry-based Census module training, Census 2020 Week (on school grounds) were canceled. SBCSS was unable to collaborate with the AVID network. Additionally, the amount of time allotted for the first round of promotional items to be dispersed to students was impacted by school closures. Furthermore, the self-response deadline changes impacted our operational efforts.

Contracted partner's outreach

What outreach tactics worked well?

What hindered the outreach?

SBCSS did not contract out with other partners.

3) Describe challenges and changes occurring outside or within your organization / agency that had an impact on the outreach work. Describe how you responded to these changes to work toward achieving a complete count.

Some of the challenges and changes occurring outside of our organization were related to the deadline to self-respond. With school closures throughout the county, SBCSS had to adjust operations to accommodate the self-response deadline. However, using the GIS mapping data, we were able to easily identify the areas within the educational community that had a low self-response rate and partner with the respective districts to complement our Census outreach efforts with their 'Grab 'n' Go' universal meal distribution sites.

COVID-19, CDPH, and local public health guidelines, revised how we were going to achieve outreach and instead used social media and leveraged partners to engage HTC communities.

4) For county and ACBO partners, what was the county (or region's) 2010 response rate, and what was the 2020 response rate? If the response rate met and exceeded the 2010 response rate, what contributed to that? If it did not meet the 2010 response rate, what were some of the challenges for that? For other partners, please note what data you used and how you used data for your strategies.

The San Bernardino County self-response rate (SSR) for 2010 was 65.3 (see Excel file). As of September 2020, the SSR was 65.4. We were able to meet and minimally exceed the 2010 rate; however, due to COVID-19 we were not able to fully implement our Education Outreach Plan to fidelity; therefore, it is unknown whether we could have had a greater impact in our community to increase our SSR.

5) Please describe the process and results of your partnership coordination and how it educated and motivated the hard-to-count populations to complete the Census questionnaire.

Our coordination and partnership with the California Census Office, Education Regional Manager, GIS, and Data Mapping Manager, and the Regional Program Manager assisted us in identifying the HTC areas, target school districts near HTC Census tracks and partner with other entities to provide outreach and motivate communities served by the school district.

SBCSS leveraged existing networks such as the countywide FEN, Homeless Education Program, and CLIC to educate and promote the Census. Teachers inspired students through their curriculum lessons while engaging them in civic duty sharing the information with families and caregivers to encourage a complete count. In our experience, families wanted to learn more about the Census and how they can make a difference to their community which was witnessed at the Family and Community Engagement Summit and their network meetings. Educational stakeholders were able to participate in the various virtual events SBCSS promoted through their social media campaigns.

The process of partnering with the district superintendents who had school sites located near HTC areas in our county on the coordination and dissemination of promotional kits helped to educate our K-12 population on the importance of completing the Census.

6) Please provide a list of key partners and describe their contributions of how they made a difference in your outreach efforts.

33 School Districts in San Bernardino County and 21 SBCSS Operated School Sites	Promoted the Census 2020 campaign by providing students, staff, and families with the Promotional Kit items SBCSS provided.
Content, Literacy, Inquiry, Citizenship (CLIC) Project	Provided a forum for SBCSS to engage the Region 10 (Riverside, Inyo, Mono, and San Bernardino Counties), history teachers, coaches, and administrators to gain the necessary tools to implement the Census curriculum addressing grades, 5, 8, 11, and 12 throughout the districts.

Inland Empire Complete Count Committee – Education, Training and Recruitment Subcommittee	Provided a platform to share best-practices, activities, and events taking place within San Bernardino and Riverside Counties.
Region 7 Census Committee	Provided updates on self-response tracks with the lowest SSR, which guided our efforts to partner with the schools/districts in the most need. Shared information on activities and events taking place in San Bernardino and Riverside Counties.
County Office of Education Partners	The monthly conference call hosted by the Schools and Education Outreach Sector Manager, Mignonne Pollard, Ed.D., provided a broad spectrum of the outreach taking place throughout the state of California, which offered beneficial information to our organization.
Families in Schools, Los Angeles	Provided a partnership to co-brand a Census 2020 Video Challenge (in English and Spanish) to members of the community. In addition, they offered the first 100 people who participated in the challenge a set of bilingual books to add to their home library or could be donated to a local community center or library.
SBCSS Homeless Education Program	Facilitated a connection to our most vulnerable and hardest to reach populations in our communities by providing buttons, pencils, and flyers at local shelters.
SBCSS Family Engagement Network	Served as a trusted messaging source which was instrumental in engaging our Latino community in all regions of the county. Information was disseminated at meetings pre-COVID-19 and virtually shared after the pandemic. This network helped to ease the trepidation the community had on Census data collection and encouraged families to complete the Census.

7) Please describe how you provided accessible and in-language outreach activities, including how you ensured equal and meaningful access to limited English proficient individuals and people with disabilities?

Using the California Department of Education demographic overview of the county's educational system, our student population consisted of 65 percent Hispanic and over 91 percent of Spanish speaking students. Therefore, SBCSS provided all Census 2020 materials and resources in English and Spanish.

With the launch of Census 2020 Promotional Kits, SBCSS was able to offer equal and meaningful access to our most vulnerable students in K-12 by providing teachers and students with disabilities and limited English proficiency with Census 2020 materials and resources in English and Spanish.

8) Please share a story(s) of how your work has made a difference to Census 2020 and the impact on the community. Please include images and quotes, so we can understand the narrative behind the numbers.

Through all of the collective efforts outlined in this report, all of the challenges our county and community as a whole faced with the COVID-19 pandemic, SBCSS was able to contribute to the county surpassing the 2010 self-response rate by using informed data to reach some of the most hard-to-count areas within our vastly large demographic county making a positive impact on our students, schools, and communities for the next decade.

As our County Superintendent Ted Alejandre shared throughout this endeavor, "A complete count for the 2020 Census is vital to our community's well-being and economic prosperity. Together, we can truly create history!"

9) Please add any suggestions for the 2030 Census efforts, including timelines.

A suggestion would be to have the U.S. Census and California Census offices/staff continue the focus on local efforts which took place during this 2020 Census over the next ten years which leveraged existing relationships and coalitions embedded within our communities. Also, continue the practice of a dedicated Census Office and respective committees established during this campaign fostering relationships and sharing of resources. This critical work will be vital to a successful 2030 Census.

Attachments

10) Please confirm that you have submitted the following which will help us better understand the full breadth of the Census work and achievements.

- a) SwORD uploads of completed activities
- b) Updated list of subcontractors
- c) Evaluations or analytical reports, if any

Count Me In!
A Census 2020 Project

For the first time in our history, California may LOSE a seat in Congress.

An incomplete count in the 2020 Census could cost California billions of dollars in federal funding and representation in Congress. You can help make sure this doesn't happen...

The Sacramento County Office of Education in partnership with the Los Angeles County Office of Education has developed curriculum modules at the 5th, 8th, 11th, and 12th grades designed to teach students about the US Census and get them excited to advocate for a complete count in 2020.

Come to a **FREE** training in this curriculum to learn about how you can teach about the US Census without disrupting your schedule!

Participants
will receive all curriculum
modules and available
resources!

Time: 8:30 am - 3:00pm Cost: **FREE** To

CENSUS 101: WHAT YOU NEED TO KNOW

The 2020 Census is closer than you think!
Here's a quick refresher of what it is and why it's essential that everyone is counted.

Everyone counts.

The census counts every person living in the U.S. once, only once, and in the right place.

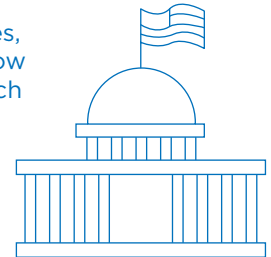

It's in the constitution.

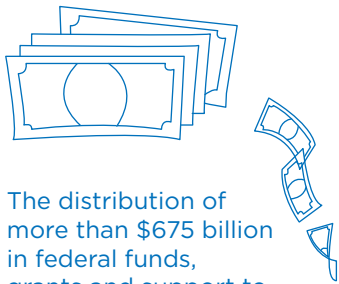

The U.S. Constitution mandates that everyone in the country be counted every 10 years. The first census was in 1790.

It's about fair representation.

Every 10 years, the results of the census are used to reapportion the House of Representatives, determining how many seats each state gets.

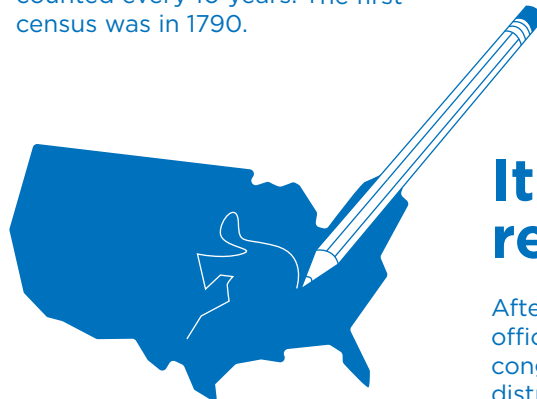

It's about \$675 billion.

The distribution of more than \$675 billion in federal funds, grants and support to states, counties and communities are based on census data.

That money is spent on schools, hospitals, roads, public works and other vital programs.

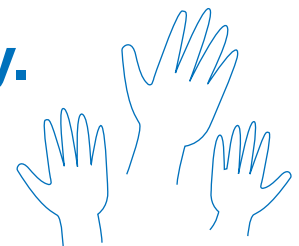

It's about redistricting.

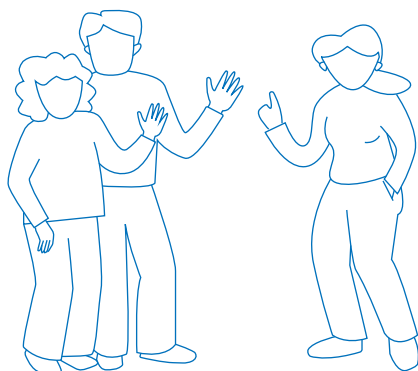

After each decade's census, state officials redraw the boundaries of the congressional and state legislative districts in their states to account for population shifts.

Taking part is your civic duty.

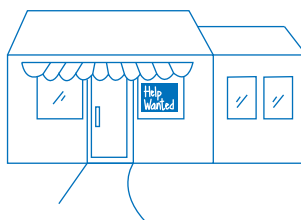

Completing the census is mandatory: it's a way to participate in our democracy and say "I COUNT!"

Census data are being used all around you.

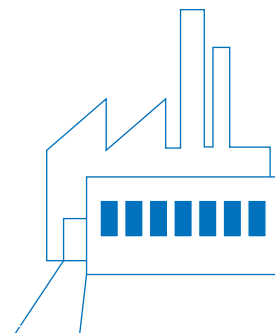

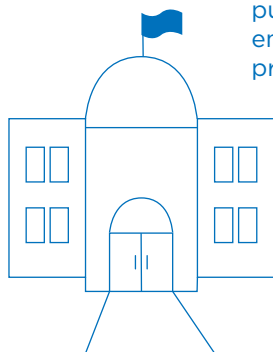

Residents use the census to support community initiatives involving legislation, quality-of-life and consumer advocacy.

Businesses use census data to decide where to build factories, offices and stores, which create jobs.

Local governments use the census for public safety and emergency preparedness.

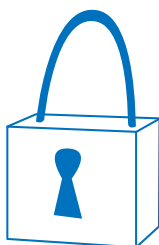

Real estate developers use the census to build new homes and revitalize old neighborhoods.

Your privacy is protected.

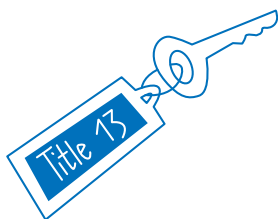

It's against the law for the Census Bureau to publicly release your responses in any way that could identify you or your household.

By law, your responses cannot be used against you and can only be used to produce statistics.

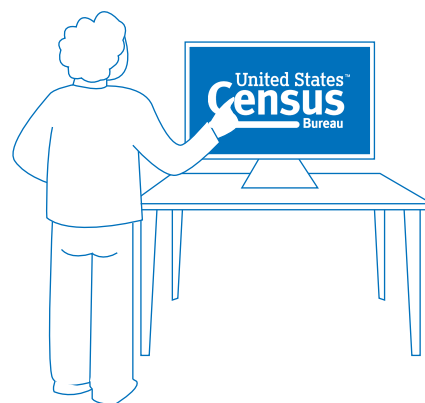

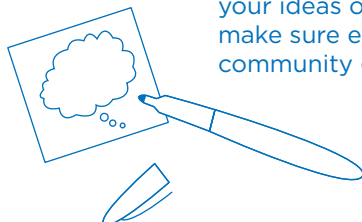

2020 will be easier than ever.

In 2020, you will be able to respond to the census online.

You can help.

You are the expert—we need your ideas on the best way to make sure everyone in your community gets counted.

The 2020 Census and Confidentiality

Your responses to the 2020 Census are safe, secure, and protected by federal law. Your answers can only be used to produce statistics—they cannot be used against you in any way. By law, all responses to U.S. Census Bureau household and business surveys are kept completely confidential.

Respond to the 2020 Census to shape the future.

Responding to the census helps communities get the funding they need and helps businesses make data-driven decisions that grow the economy. Census data impact our daily lives, informing important decisions about funding for services and infrastructure in your community, including health care, senior centers, jobs, political representation, roads, schools, and businesses. More than \$675 billion in federal funding flows back to states and local communities each year based on census data.

Your census responses are safe and secure.

The Census Bureau is required by law to protect any personal information we collect and keep it strictly confidential. The Census Bureau can only use your answers to produce statistics. In fact, every Census Bureau employee takes an oath to protect your personal information for life. Your answers cannot be used for law enforcement purposes or to determine your personal eligibility for government benefits.

By law, your responses cannot be used against you.

By law, your census responses cannot be used against you by any government agency or court in any way—not by the Federal Bureau of Investigation (FBI), not by the Central Intelligence Agency (CIA), not by the Department of Homeland Security (DHS), and not by U.S. Immigration and Customs Enforcement (ICE). The law requires the Census Bureau to keep your information confidential and use your responses only to produce statistics.

The law is clear—no personal information can be shared.

Under Title 13 of the U.S. Code, the Census Bureau cannot release any identifiable information about individuals, households, or businesses, even to law enforcement agencies.

The law states that the information collected may only be used for statistical purposes and no other purpose.

To support historical research, Title 44 of the U.S. Code allows the National Archives and Records Administration to release census records only after 72 years.

All Census Bureau staff take a lifetime oath to protect your personal information, and any violation comes with a penalty of up to \$250,000 and/or up to 5 years in prison.

There are no exceptions.

The law requires the Census Bureau to keep everyone's information confidential. By law, your responses cannot be used against you by any government agency or court in any way. The Census Bureau will not share an individual's responses with immigration enforcement agencies, law enforcement agencies, or allow that information to be used to determine eligibility for government benefits. Title 13 makes it very clear that the data we collect can only be used for statistical purposes—we cannot allow it to be used for anything else, including law enforcement.

It's your choice: you can respond securely online, by mail, or by phone.

You will have the option of responding online, by mail, or by phone. Households that don't respond in one of these ways will be visited by a census taker to collect the information in person. Regardless of how you respond, your personal information is protected by law.

Your online responses are safe from hacking and other cyberthreats.

The Census Bureau takes strong precautions to keep online responses secure. All data submitted online are encrypted to protect personal privacy, and our cybersecurity program meets the highest and most recent standards for protecting personal information. Once the data are received, they are no longer online. From the moment the Census Bureau collects responses, our focus and legal obligation is to keep them safe.

We are committed to confidentiality.

At the U.S. Census Bureau, we are absolutely committed to keeping your responses confidential. This commitment means it is safe to provide your answers and know that they will only be used to paint a statistical portrait of our nation and communities.

Learn more about the Census Bureau's data protection and privacy program at www.census.gov/privacy.

Laws protecting personal census information have withstood challenges.

In 1982, the U.S. Supreme Court confirmed that even addresses are confidential and cannot be disclosed through legal discovery or the Freedom of Information Act (FOIA). In 2010, the U.S. Justice Department determined that the Patriot Act does not override the law that protects the confidentiality of individual census responses. No court of law can subpoena census responses.

How the 2020 Census will invite everyone to respond

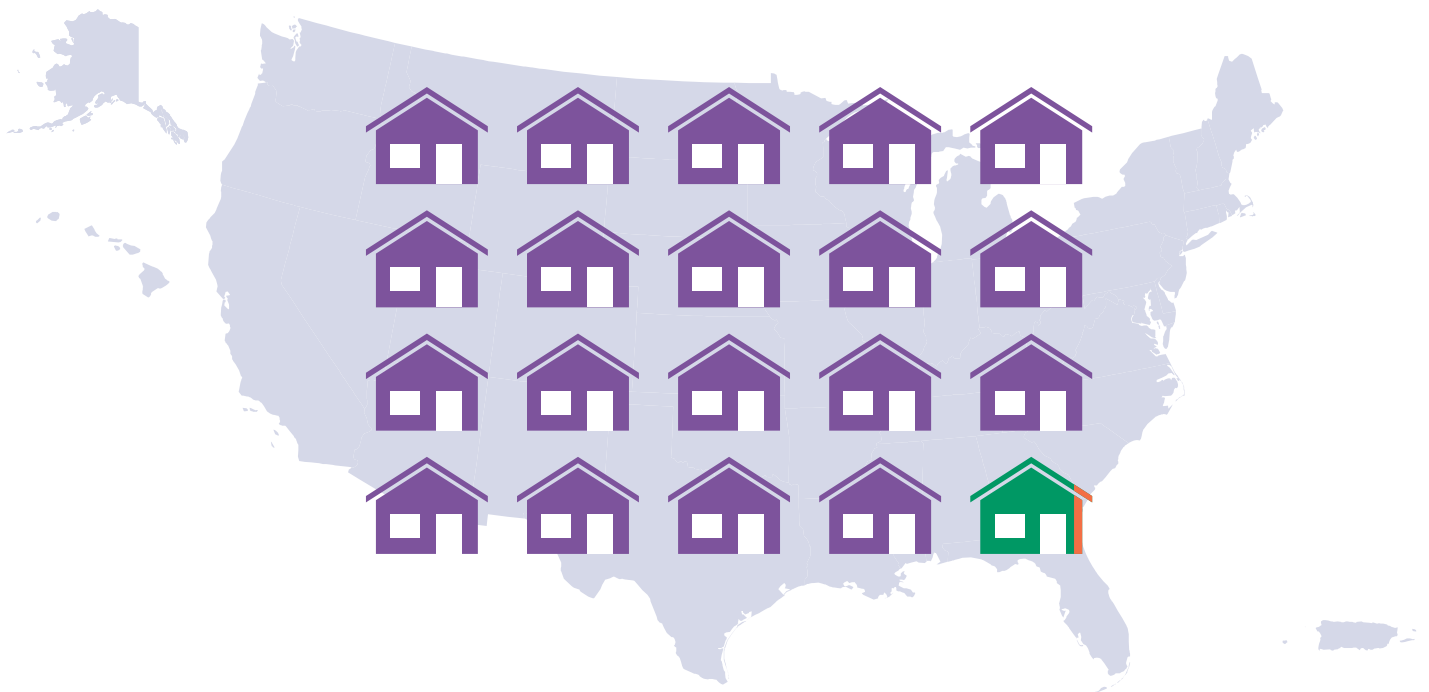

Every household will have the option of responding online, by mail, or by phone.

Nearly every household will receive an invitation to participate in the 2020 Census from either a postal worker or a census worker.

95% of households will receive their census invitation in the mail.

Almost 5% of households will receive their census invitation when a census taker drops it off. In these areas, the majority of households may not receive mail at their home's physical location (like households that use PO boxes or areas recently affected by natural disasters).

Less than 1% of households will be counted in person by a census taker, instead of being invited to respond on their own. We do this in very remote areas like parts of northern Maine, remote Alaska, and in select American Indian areas that ask to be counted in person.

Note: We have special procedures to count people who don't live in households, such as students living in university housing or people experiencing homelessness.

How the 2020 Census will invite everyone to respond

What to Expect in the Mail

When it's time to respond, most households will receive an invitation in the mail.

Every household will have the option of responding online, by mail, or by phone.

Depending on how likely your area is to respond online, you'll receive either an invitation encouraging you to respond online or an invitation along with a paper questionnaire.

Letter Invitation

- Most areas of the country are likely to respond online, so most households will receive a letter asking you to go online to complete the census questionnaire.
- We plan on working with the U.S. Postal Service to stagger the delivery of these invitations over several days. This way we can spread out the number of users responding online, and we'll be able to serve you better if you need help over the phone.

Letter Invitation and Paper Questionnaire

- Areas that are less likely to respond online will receive a paper questionnaire along with their invitation. The invitation will also include information about how to respond online or by phone.

WHAT WE WILL SEND IN THE MAIL	
On or between	You'll receive:
March 12-20	An invitation to respond online to the 2020 Census. (Some households will also receive paper questionnaires.)
March 16-24	A reminder letter.
	If you haven't responded yet:
March 26-April 3	A reminder postcard.
April 8-16	A reminder letter and paper questionnaire.
April 20-27	A final reminder postcard before we follow up in person.

We understand you might miss our initial letter in the mail.

- Every household that hasn't already responded will receive reminders and will eventually receive a paper questionnaire.
- It doesn't matter which initial invitation you get or how you get it—we will follow up in person with all households that don't respond.

INFORMACIÓN BÁSICA SOBRE EL CENSO: LO QUE USTED NECESITA SABER

¡El Censo del 2020 está más cerca de lo que usted cree!
Esto es un repaso rápido de lo que es y de por qué es esencial
que todos sean contados.

Todos cuentan.

El censo cuenta a todas las personas que viven en los Estados Unidos una vez, solo una vez y en el lugar correcto.

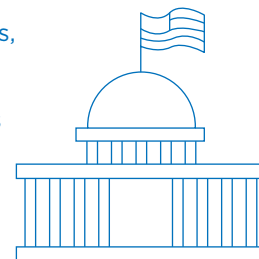

Está en la Constitución.

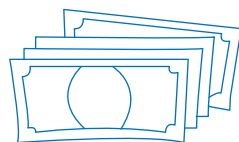

La Constitución de los EE. UU. ordena que cada 10 años se cuente a todas las personas que están en el país. El primer censo se llevó a cabo en 1790.

Se trata de una representación justa.

Cada 10 años, los resultados del censo se usan para llevar a cabo la redistribución proporcional de la Cámara de Representantes, determinando cuántos representantes recibe cada estado.

Se trata de \$675 mil millones.

La distribución de más de \$675 mil millones de fondos federales, subsidios y apoyo a los estados, condados y comunidades se basa en los datos del censo.

Ese dinero se usa para escuelas, hospitales, carreteras, obras públicas y otros programas vitales.

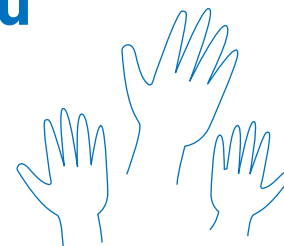

Se trata de la redistribución legislativa.

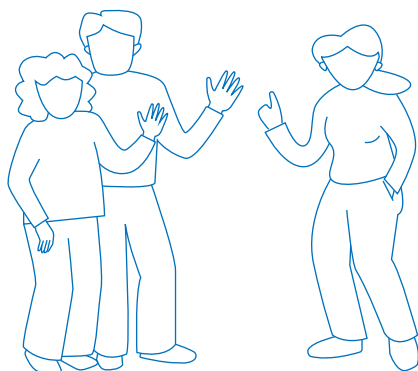

Luego del censo de cada década, los funcionarios estatales redefinen los límites de los distritos legislativos congresionales y estatales en sus estados para reflejar los cambios en la población.

Participar es su deber cívico.

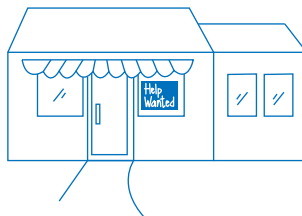

Completar el censo es obligatorio. Es una manera de participar en nuestra democracia y decir "¡YO CUENTO!".

Los datos del censo se usan en todas partes.

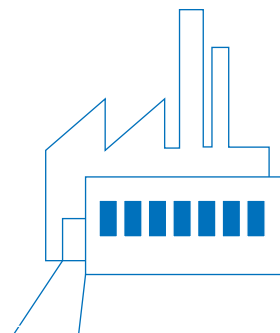

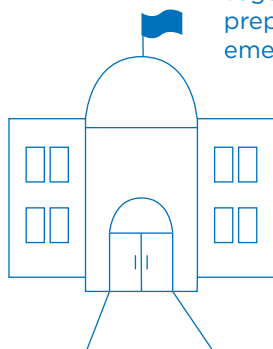

Los residentes usan los datos del censo para apoyar iniciativas comunitarias relacionadas con la legislación, la calidad de vida y la defensa del consumidor.

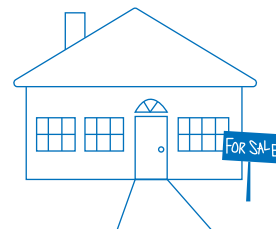

Las empresas usan los datos del censo para decidir dónde construir fábricas, oficinas y tiendas, lo cual crea empleos.

Los gobiernos locales usan el censo para la seguridad pública y la preparación para emergencias.

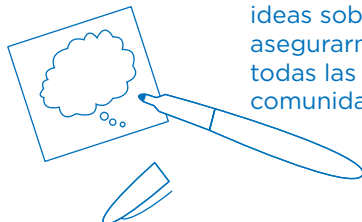

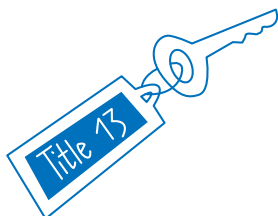

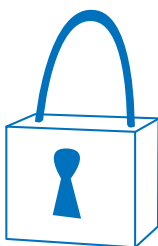

Los constructores de propiedades inmobiliarias usan los datos del censo para construir casas nuevas y revitalizar vecindarios viejos.

Su privacidad está protegida.

Es contra la ley que la Oficina del Censo divulgue públicamente sus respuestas de cualquier manera que pudiera identificarle a usted o a su hogar.

Por ley, sus respuestas no pueden ser usadas en su contra y solo pueden ser usadas para producir estadísticas.

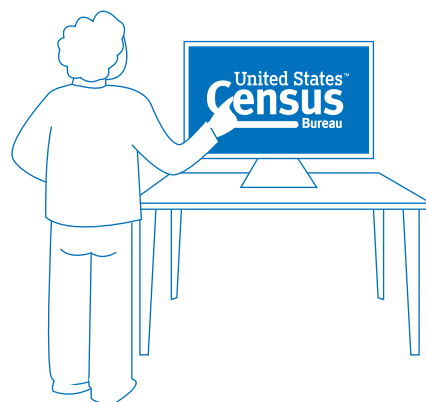

Usted puede ayudar.

Su opinión es muy importante—necesitamos sus ideas sobre la mejor forma de asegurarnos que se cuenten a todas las personas en su comunidad.

El 2020 será más fácil que nunca.

En el 2020, usted podrá responder al censo por internet.

El Censo del 2020 y la Confidencialidad

*Sus respuestas al Censo del 2020 están seguras, a salvo y protegidas por la ley federal. Sus respuestas se pueden usar solamente para producir estadísticas—**no se pueden usar en su contra de ninguna manera.** Por ley, todas las respuestas a las encuestas sobre hogares y empresas que realiza la Oficina del Censo de los EE. UU. se mantienen completamente confidenciales.*

Responda al Censo del 2020 para dar forma al futuro.

Responder al censo ayuda a las comunidades a obtener los fondos que necesitan y ayuda a las empresas a tomar decisiones basadas en datos que hacen crecer a la economía. Los datos del censo influyen en nuestra vida diaria, aportando información para tomar decisiones importantes sobre el financiamiento de servicios e infraestructura en su comunidad, incluyendo atención médica, centros para personas de la tercera edad, empleos, representación política, carreteras, escuelas y negocios. Más de \$675 mil millones de fondos federales se distribuyen a los estados y a las comunidades locales basándose en los datos del censo.

Sus respuestas al censo están seguras y a salvo.

La Oficina del Censo está obligada por ley a proteger toda la información personal que se recopile y a mantenerla en estricta confidencialidad. La Oficina del Censo puede usar sus respuestas solo para producir estadísticas. De hecho, cada uno de los empleados de la Oficina del Censo presta un juramento para proteger su información personal de por vida. Sus respuestas no se pueden usar para fines del cumplimiento de la ley o para determinar su elegibilidad personal para beneficios del gobierno.

Por ley, sus respuestas no pueden ser usadas en su contra.

Por ley, sus respuestas al censo no pueden ser usadas en su contra de ninguna manera por ninguna agencia del gobierno ni tribunal—ni por el Buró Federal de Investigaciones (FBI), ni por la Agencia Central

La ley es clara: no se puede compartir ninguna información personal.

En conformidad con el Título 13 del Código de los EE. UU., la Oficina del Censo no puede divulgar ninguna información identificable sobre individuos, hogares o empresas, ni siquiera a agencias encargadas de hacer cumplir la ley.

La ley estipula que la información que se recopile se puede usar solo para propósitos estadísticos y para ningún otro fin.

Con el fin de apoyar los estudios históricos, el Título 44 del Código de los EE. UU. permite a la Administración Nacional de Archivos y Registros publicar los registros del censo solo después de 72 años.

Todo el personal de la Oficina del Censo presta un juramento de por vida para proteger su información personal, y cualquier violación es sancionada con una multa de hasta \$250,000 y/o hasta cinco años de prisión.

de Inteligencia (CIA), ni por el Departamento de Seguridad Nacional (DHS), ni por el Servicio de Inmigración y Control de Aduanas de los EE. UU. (ICE). La ley exige a la Oficina del Censo mantener confidencial su información y usar sus respuestas solo para producir estadísticas.

No hay excepciones.

La ley exige a la Oficina del Censo mantener confidencial la información de todas las personas. Por ley, sus respuestas no pueden ser usadas en su contra de ninguna manera por ninguna agencia del gobierno o tribunal. La Oficina del Censo no compartirá las respuestas de ninguna persona con las agencias de inmigración o las agencias encargadas de hacer cumplir la ley, ni permitirá que esa información se use para determinar la elegibilidad para beneficios del gobierno. El Título 13 deja muy claro que la información que recopilamos se puede usar solo para propósitos estadísticos—no podemos permitir que se use para nada más, incluyendo el cumplimiento de la ley.

La opción es suya: usted puede responder de manera segura por internet, por teléfono o por correo.

Usted tendrá la opción de responder por internet, por correo o por teléfono. Un censista visitará los hogares que no respondan de una de estas maneras para recopilar la información en persona. La ley protege su información personal, sin importar cómo responda.

Sus respuestas por internet están a salvo de la piratería informática (*hacking*) y otras amenazas cibernéticas.

La Oficina del Censo toma rigurosas precauciones para mantener seguras las respuestas por internet. Todos los datos que se envían por internet son cifrados para proteger la privacidad personal, y nuestro programa de seguridad cibernética cumple con los estándares más exigentes y recientes para proteger la información personal. Una vez que se reciben los datos, ya no permanecen en línea. Desde el momento en que la Oficina del Censo recopila las respuestas, nuestro objetivo y obligación legal es mantenerlas seguras.

Estamos comprometidos a mantener la confidencialidad.

En la Oficina del Censo de los EE. UU., estamos absolutamente comprometidos a mantener confidenciales sus respuestas. Este compromiso significa que es seguro responder al censo sabiendo que sus respuestas solo se usarán para pintar un retrato estadístico de nuestra nación y sus comunidades.

Averigüe más sobre el programa de protección de datos y privacidad de la Oficina del Censo en www.census.gov/privacy.

Las leyes que protegen la información personal del censo han resistido los desafíos.

En 1982, la Corte Suprema de los EE. UU. confirmó que aun las direcciones son confidenciales y no se pueden divulgar mediante procesos de descubrimiento legal o la Ley de Libertad de Información (FOIA). En el 2010, el Departamento de Justicia de los EE. UU. determinó que la Ley Patriota no tiene precedencia sobre la ley que protege la confidencialidad de las respuestas individuales del censo. Ningún tribunal de justicia puede emitir una citación judicial que ordene la presentación de las respuestas del censo.

Cómo el Censo del 2020 invitará a todos a responder

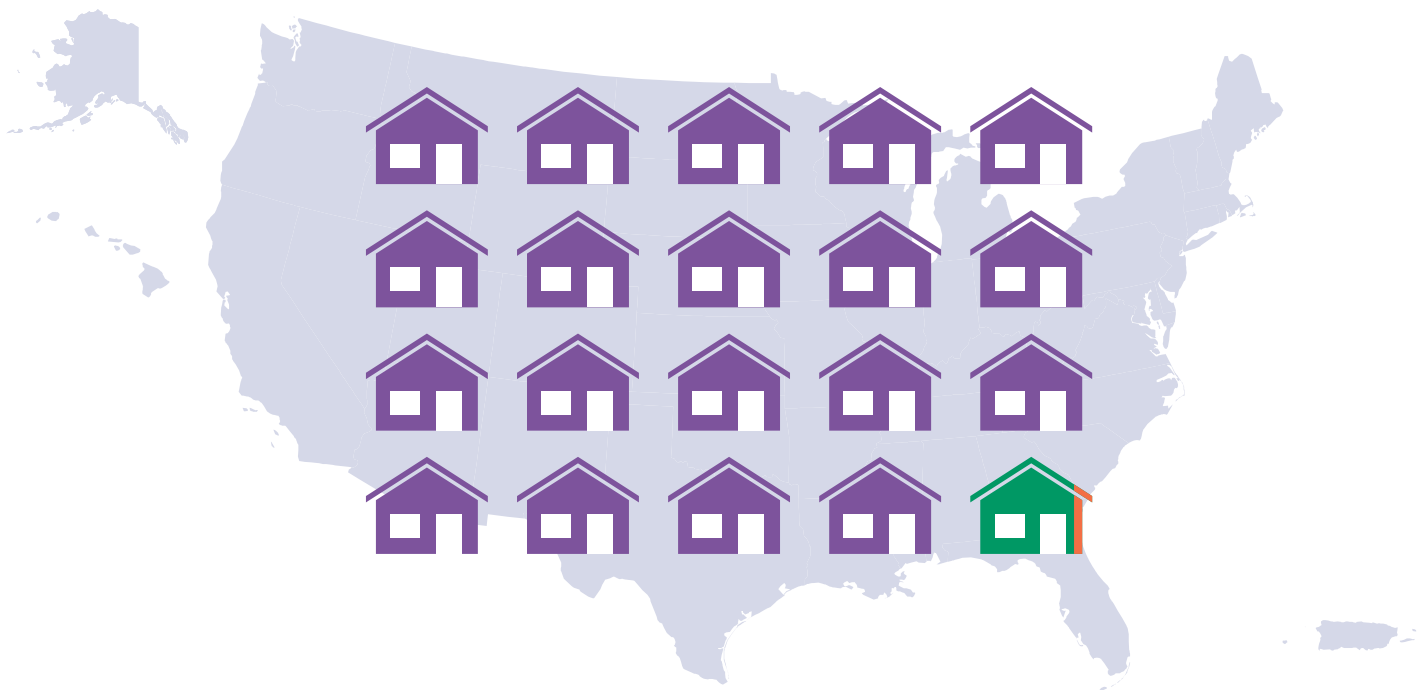

Todos los hogares tendrán la opción de responder por internet, por correo postal o por teléfono

Casi todos los hogares recibirán una invitación para participar en el Censo del 2020 ya sea de un empleado del servicio postal o de un censista.

El 95% de los hogares recibirán su invitación del censo por correo.

Casi el 5% de los hogares recibirán su invitación del censo cuando un censista pase a dejarla. En estas áreas, la mayoría de los hogares podrían no recibir correo en la ubicación física de su vivienda (como los hogares que usan apartados postales o áreas recientemente afectadas por desastres naturales).

A menos del 1% de los hogares los contará un censista en persona, en vez de invitárseles a que respondan por su cuenta. Esto lo hacemos en áreas muy remotas, como partes del norte de Maine, zonas remotas de Alaska, y en áreas selectas de indígenas de las Américas que piden que se les cuente en persona.

Nota: Tenemos procedimientos especiales para contar a las personas que no viven en hogares, como estudiantes que están en viviendas universitarias o personas sin hogar.

Cómo el Censo del 2020 invitará a todos a responder

Qué Puede Anticipar Recibir por Correo

Cuando sea el momento de responder, la mayoría de los hogares recibirán una invitación por correo.

Todos los hogares tendrán la opción de responder por internet, por correo postal o por teléfono.

Dependiendo de la probabilidad de que su área responda por internet, usted recibirá una invitación alentándole a que responda por internet o una invitación junto con un cuestionario impreso.

Invitación por Carta

- La mayoría de las áreas del país probablemente responderán por internet, así que la mayoría de los hogares recibirán una carta pidiéndole que complete el cuestionario del censo por internet.
- Nuestro plan es trabajar con el Servicio Postal de los EE. UU. para entregar estas invitaciones en etapas, a lo largo de varios días. De esta manera, podemos distribuir

el número de usuarios que responden por internet, y podremos prestarle un mejor servicio si usted necesita ayuda por teléfono.

Invitación por Carta y Cuestionario Impreso

- Las áreas con menos probabilidad de responder por internet recibirán un cuestionario impreso junto con su invitación. La invitación también incluirá información acerca de cómo responder por internet o por teléfono.

QUÉ ENVIAREMOS POR CORREO	
Entre las fechas del	Usted recibirá:
12 al 20 de marzo	Una invitación para responder al Censo del 2020 por internet. (Algunos hogares también recibirán cuestionarios impresos.)
16 al 24 de marzo	Una carta recordatoria.
	Si usted aún no ha respondido:
26 de marzo al 3 de abril	Una tarjeta postal recordatoria.
8 al 16 de abril	Una carta recordatoria y un cuestionario impreso.
20 al 27 de abril	Una última tarjeta postal recordatoria antes de que hagamos un seguimiento en persona

Sabemos que es posible que usted no vea nuestra carta inicial por correo.

- Todos los hogares que aún no hayan respondido recibirán recordatorios y eventualmente recibirán un cuestionario impreso.
- No importa cuál sea la invitación inicial que usted reciba o cómo la reciba—haremos un seguimiento en persona en todos los hogares que no respondan.

Everybody Counts!

Include all infants, toddlers and children living at your address in the 2020 Census form.

What / Why

The U.S. Census is our nation's population count and happens once every 10 years.

When you complete the census form, you contribute to an accurate count, which helps determine the amount of money California will receive for early childhood education, schools, healthcare, housing, transportation and other vital programs. The population count also determines the number of seats California has in the House of Representatives.

Who

Our constitution requires everyone living in the U.S. to be counted in the census, regardless of age, race, sex and employment or citizenship status. This includes children ages 0-4, so please include them on your census form!

By law, your answers are kept confidential, are used only for producing statistics, and cannot be used against you in any way. The census form will **not** ask about your immigration status, citizenship status, or your social security number.

When

March 2020: You will be mailed an invitation to complete the census form online, by phone or by mail. Please include everyone living at your address on the form, even if they are not family members.

April 2020: Households that haven't responded will receive a reminder postcard, and some may also receive a paper census form.

May 2020: Census workers will visit households that have not responded to make sure everyone is counted.

How

Completing the census form is fast, simple and convenient. In about 10 minutes, you can complete the form online, by phone, on paper, or by visiting one of the Census Action Kiosks throughout the county. Dial 311 to find a kiosk near you.

The online form will be available in 13 languages, and there will be guides in 60 languages to help you complete the questions.

For bilingual assistance (English and Spanish) with the 2020 Census, call NALEO Educational Fund's toll-free hotline 877-EL-CENSO (877-352-3676).

¡Todos cuentan!

Incluya a todos los infantes, bebés, y niños que vivan en su dirección en el formulario del Censo 2020.

Qué / Por qué

El censo de los EE UU es el recuento de la población de nuestra nación y ocurre una vez cada 10 años.

Cuando usted llena el formulario del censo, contribuye a un conteo preciso, el cual ayuda a determinar la cantidad de dinero que California recibirá para el aprendizaje temprano, escuelas, atención médica, vivienda, transporte y otros programas vitales. El recuento de población también determina el número de representantes que California tiene en la Cámara de Representantes del Gobierno federal.

Quién

Nuestra constitución exige que todas las personas que viven en los Estados Unidos sean contadas en el censo, independientemente de su edad, raza, sexo y empleo o estado de ciudadanía. Esto incluye a los niños de 0 a 4 años, ¡así que inclúyalos en su formulario de censo!

Por ley, sus respuestas se mantienen confidenciales, se utilizan sólo para producir estadísticas y no se pueden utilizar en su contra de ninguna manera. El formulario de censo **no le preguntará** sobre su estatus migratorio, estatus de ciudadanía o número de seguro social.

Cuándo

Marzo de 2020: Se le enviará por correo una invitación para llenar el formulario del censo, en línea, por teléfono o por correo. Incluya en el formulario a todos los que vivan en su domicilio, incluso si no son miembros de la familia.

Abril de 2020: Los hogares que no hayan respondido recibirán una postal de recordatorio, y algunos también pueden recibir un formulario de censo en papel.

Mayo de 2020: Los trabajadores del censo visitarán los hogares que no han respondido para asegurarse de que todos sean contados.

Cómo

Llenar el formulario de censo es rápido, sencillo y conveniente. En unos 10 minutos, puede llenar el formulario en línea, por teléfono, en papel o visitando uno de los quioscos de acción del censo en todo el condado. Marque el 311 para encontrar un quiosco cerca de usted.

El formulario en línea estará disponible en 13 idiomas, y también habrá guías en 60 idiomas para ayudarle a completar las preguntas.

Para ayuda bilingüe (inglés y español) con el Censo 2020, llame a la línea gratuita 877-EL-CENSO (877-352-3676) de NALEO Educational Fund.

Census 2020 Video Script For Ted

Hello and welcome!

As the largest county in California, San Bernardino County has a tremendous, upcoming responsibility. The 2020 Census, issued by the U.S. Census Bureau, is one of the most important events for our country because it is an opportunity for each one of us to be represented. Imagine the impact we could all make by taking part in this decade's census. Together, we can truly create history.

When we respond to the Census, we are joining a historical moment by actively participating our nation's democratic process. Every census completed ensures the community pillars around us are funded and supported, and the great state of California is accurately represented at the federal level.

The results from the census impact our daily lives. Based on the data collected through the census, businesses decide where to establish their factories, offices, and stores – in turn creating jobs. Local governments are better equipped to make knowledgeable decisions for public safety and emergency preparedness. The appropriate funds are provided and distributed to our schools, hospitals, roads, public works, and other vital programs. All around us, we experience the impact and several benefits from the census. But we must participate.

When it's time to respond, nearly every household will receive an invitation in the mail asking for your response by mail, by phone, or online. 2020 will be easier and more convenient than ever.

However you decide to respond, rest assured your census is secure, safe, and confidential. By law, your responses are protected and cannot be used against you by any government agency or court in any way. The Census Bureau is committed to ensuring the answers you provide are confidential and will only be used to create a safe and sustainable community.

Thank you in advance for fulfilling your civic duty. A complete count for the 2020 Census is vital to our community's well-being and economic prosperity. All we need do is participate and respond to the 2020 Census. Your efforts today will impact schools, students and communities for the next 10 years. Together we can make a difference. Together we count.

February 7, 2020

Dear Superintendent,

San Bernardino County Superintendent of Schools (SBCSS) is committed to education and outreach activities to inform TK-12 students, families, educators, and communities on the importance of a complete Census count on April 1 to ensure San Bernardino County receives its fair share of federal funds. More than 70 federally funded programs that benefit California, including education, use Census numbers as part of their funding formula.

For every Californian not counted during Census 2020, California is expected to lose approximately \$1,950 per person, per year, for the next 10 years in federal funding. According to the Census 2020 California Hard-to-Count Fact Sheet (San Bernardino County Region 7), 47 percent of the county's population is considered Hard -To-Count (HTC) and this equates to an estimated loss of \$19.4 billion in federal funding over a 10-year period. There is also a possibility of losing U.S. Congressional representation which will have a negative impact on California.

SBCSS, in partnership with the California Census 2020 Office, identified 142 schools countywide which are located within or near a census tract meeting the criteria of a (1) HTC index greater than 46, (2) limited English-speaking households greater than 6.9 percent (county average), and (3) households with income below 150 percent of the poverty level greater than 29.4 percent (county average).

As part of our commitment, SBCSS will:

- Provide a Census 2020 Promotional Kit to be delivered the week of February 17 to 142 school sites meeting the HTC criteria (see attachment), which will include:
 - Census 2020 School-Based Outreach Toolkit and promotional items
 - Vinyl banner in English and Spanish
 - Materials on inquiry-based Census modules for grades 5, 8, 11, and 12 (modules are self-contained, optional training if needed)
- Offer optional training on inquiry-based Census modules in March (dates to be announced)
- Encourage schools countywide to hold a Census 2020 Week during the week of March 30-April 3 based on their spring recess schedule
- Activate Questionnaire Assistance Kiosks beginning March 12 at the following SBCSS sites:
 - Roy C Hill Education Center, 601 North E Street, San Bernardino, 92415
 - Desert/Mountain Educational Service Center, 17800 Highway 18, Apple Valley, 92307
 - West End Educational Service Center, 8265 Aspen Avenue., Rancho Cucamonga, 91730

When each of us takes part in our civic duty then together we can make a difference for our students, schools, and communities for the next decade. If you would like to request a Promotional Kit for the district office and/or school sites not listed meeting the HTC criteria, please contact my office at IGR@sbcss.net or call 909.386.2947.

Sincerely,

Barbara Alejandre
Chief Intergovernmental Relations Officer

Attachments

February 21, 2020

Dear San Bernardino County Superintendent of Schools (SBCSS) Principal,

As you know, County Superintendent Ted Alejandre and our Labor Union Representatives are supporting the collective efforts in getting the word out about Census 2020 to ensure students, families, and communities in San Bernardino County get their fair share of federal resources. Census numbers are used to determine funding formulas for more than 70 federally funded programs, including education, that benefit San Bernardino County and especially our most vulnerable residents.

The Census 2020 Promotional Kit is designed to create awareness about Census 2020 and inform students, families, caregivers, educators, and surrounding communities about the importance of a complete count to make a difference that can have a positive impact over the next decade!

Here's how you can support our efforts:

- Display the Census 2020 vinyl banners in English and Spanish in a high-traffic area (e.g. school fence)
- Encourage staff to wear the Census 2020 "I Count" button through April 27
- Share information from the 2020 Census A Guide for California's School-Based Outreach document with your staff to inform and promote Census 2020 Week with students, families, and caregivers
- Disseminate Census 2020 promotional items to staff and students
- Hold a Census 2020 Week on your campus between March 23 – April 9 based on spring recess schedule
- Encourage teachers for grades 5, 8, 11, and 12 to:
 - Implement the inquiry-based Census self-contained modules (printed materials included)
Note: Electronic access to materials is available: www.bit.ly/2020CensusInquiries
 - Attend an optional inquiry-based Census modules training on March 23 from 8:30 a.m. to 2:30 p.m.
Note: Funding is available through the Census grant to cover substitute costs
- Promote Questionnaire Assistance Kiosks for public access beginning March 12 through April 27 from 8 a.m. to 4 p.m. at our following SBCSS locations:
 - Roy C Hill Education Center, 601 North E Street, San Bernardino, 92415
 - Desert/Mountain Educational Service Center, 17800 Highway 18, Apple Valley, 92307
 - West End Educational Service Center, 8265 Aspen Avenue, Rancho Cucamonga, 91730

For every Californian not counted during Census 2020, ***California is expected to lose approximately \$1,950 per person, per year, for the next 10 years in federal funding.*** According to the Census 2020 California Hard-to-Count (HTC) Fact Sheet (San Bernardino County Region 7), 47 percent of the county's population is considered HTC and is at greatest risk of not having its residents counted. ***This equates to an estimated loss of \$19.4 billion in federal funding over a 10-year period for San Bernardino County.***

If you have any questions or would like to request additional Census 2020 materials, please contact the Intergovernmental Relations Department at IGR@sbcss.net or call 909.386.2947. San Bernardino County can't afford to lose these vital federal dollars that provide critical resources and services to our children and communities!

Sincerely,

Barbara Alejandre
Chief Intergovernmental Relations Officer

Business Services • Richard De Nava, Assistant Superintendent

February 19, 2020

Dear Principal,

San Bernardino County Superintendent of Schools (SBCSS), in partnership with the California Census 2020 Office, has informed your Superintendent that your school site was identified as one of 142 schools countywide located within or near a census tract meeting Census 2020 Hard-to-Count (HTC) criteria and is at greatest risk of not having its residents counted. Census numbers are used for funding formulas for more than 70 federally funded programs, including education, that positively impact the lives of our most vulnerable students and families. Together we can make a difference that can have a positive impact on our students, schools, and communities for the next decade!

The Census 2020 Promotional Kit is designed to create awareness about Census 2020 and inform students, families, caregivers, educators, and surrounding communities about the importance of a complete count to ensure they receive their fair share of federal funding.

We need your participation to:

- Display the Census 2020 vinyl banners in English and Spanish in a high-traffic area (e.g. school fence)
- Disseminate Census 2020 promotional items to staff and students
- Hold a Census 2020 Week on your campus between March 23 – April 9 based on spring recess schedule
- Share information from the 2020 Census A Guide for California's School-Based Outreach document with your staff to inform and promote Census 2020 Week with students, families, and caregivers
- Encourage teachers for grades 5, 8, 11, and 12 to:
 - Implement the inquiry-based Census self-contained modules (printed materials included)
Note: Electronic access to materials is available: www.bit.ly/2020CensusInquiries
 - Attend an optional inquiry-based Census modules training on March 23 from 8:30 a.m. to 2:30 p.m.
Note: SBCSS will cover substitute costs up to \$125 dollars per teacher registered
- Promote Questionnaire Assistance Kiosks for public access beginning March 12 through April 27 from 8 a.m. to 4 p.m. at the following locations:
 - Roy C Hill Education Center, 601 North E Street, San Bernardino, 92415
 - Desert/Mountain Educational Service Center, 17800 Highway 18, Apple Valley, 92307
 - West End Educational Service Center, 8265 Aspen Ave., Rancho Cucamonga, 91730

For every Californian not counted during Census 2020, ***California is expected to lose approximately \$1,950 per person, per year, for the next 10 years in federal funding.*** According to the Census 2020 California Hard-to-Count Fact Sheet (San Bernardino County Region 7), 47 percent of the county's population is considered HTC. ***This equates to an estimated loss of \$19.4 billion in federal funding over a 10-year period for San Bernardino County.***

If you have any questions or would like to request additional Census 2020 materials, please contact the Intergovernmental Relations Department at IGR@sbcss.net or call 909.386.2947. We can't afford to lose these vital federal dollars that provide critical resources and services to our children and communities!

Sincerely,

Barbara Alejandre

Overview

California has the top ten hardest to count counties in the United States, and school-aged children are oftentimes forgotten when their families complete the census questionnaire.

The purpose of the toolkit is to provide administrators and teachers with basic census information to help increase knowledge of the census and to encourage family of students to accurately complete the questionnaire.

California receives over \$7 billion in vital federal aid for programs that support our schools. Some of these programs serve our hardest to count populations: Special Education, English Language Learner Support and Migrant Education.

Nationwide, the census count determines the distribution of over \$675 billion for federal programs that shape our transportation systems, elderly care, hospitals and other community services.

This toolkit includes: a sample parent letter, social media posts, and talking points to engage your school community in Census 2020 participation.

Census Day is April 1, 2020. Individuals will have until July 30 to complete the census questionnaire form. Every Californian counts. Make sure California's school-aged children are counted.

Overview

WHAT IS IN THIS TOOLKIT?

This toolkit is a collection of communication resources, such as tips, templates, examples and timelines, designed for K-12 administrators in schools to plan and activate a successful Census 2020 campaign. The tools can be used individually or combined creatively to engage students, parents, school officials and the surrounding community.

HOW TO USE THESE TOOLS

Each section includes a user-guide, a tool icon in orange and a description of the specific tool in a box on the top right corner of the page. It looks like this example below.

Purpose	Suggested Tools and Tool Icon	When to use the tools
Planning	 Timeline tools  Messaging tools	When planning activities that schools may participate in. The timeline is month to month from October 2019 through April 2020.
Parent Support	 Templates: <ul style="list-style-type: none">Parent letterWhat every parent needs to know  Educational Tools <ul style="list-style-type: none">Census 101District Title 1 Part A allocation	To outreach and educate student's parents, guardians and family members on what the Census is, how they can get involved and why they should participate. Use the parent letter tool as your first point of contact to introduce your school's active participation in Census 2020.
School Board Support	 Board Resolution template	Specific language tailored to creating a resolution.
Verbal Communications	 Messaging tools <ul style="list-style-type: none">Talking Points	Tips and templates to help develop and tailor your spoken messages to various audiences.
Written and Visual Communications	 Messaging tools <ul style="list-style-type: none">Text messagesPress release templatePublic Service AnnouncementSocial networking	Tips and templates to help develop and tailor your written messages to various audiences and for different medias.
Outreach and Education	 Educational Tools <ul style="list-style-type: none">Census 101Additional Resources	Education tools available for anyone you serve to learn about the Census and to access other Census related resources.

Message from the Director

California's schools have an important role in Census 2020 outreach. We are asking educators across the state to help us ensure every Californian is counted. An accurate count in the census assures we receive our fair share of federal funds that support programs like special education, before and after school, and school nutrition. California receives over \$7 billion in federal aid to support our schools.

Best practices for education outreach involve parents, teachers, and administrators in census outreach. Census outreach efforts in schools would include programs like migrant education, adult education, and early childhood education. A key message that should be conveyed to parents is the census is safe, secure, and confidential. Please reassure parents their information is confidential and safe.

Schools are also encouraged to coordinate outreach efforts with community-based outreach efforts by inviting speakers from local Complete Count Committees, hosting joint informational forums, and staying connected with state-funded Census Complete Count Regional Program Managers.

This is a [link](#) to help support local coordinated efforts.

This toolkit is filled with information to support a robust outreach program in California's schools. An accurate census count is vital to schools receiving their fair share of funding to support operations.

You are our trusted messengers. Your outreach efforts will help ensure every child is counted.

Thank you for your community's support of Census 2020 outreach efforts.

Ditas Katague, Director
California Complete Count, Census 2020

Talking Points

- Every ten years the U.S. Census Bureau counts every person in the U.S., and this will be the first census to rely heavily on online responses.
- The census counts everyone living in the United States, regardless of immigration status.
- The census does not ask about immigration status.
- California schools receive over \$7 billion in federal funding, which is impacted by a complete and accurate census count. Census numbers are used to allocate, monitor, and evaluate education programs.
- Participating in the 2020 Census ensures that you and your communities have fair representation. The 2020 Census will determine the number of representatives California has in the U.S. House of Representatives and the number of votes we have in the Electoral College. Census data will also be used to redraw State Assembly and Senate boundaries.
- The 2020 Census is safe and secure.
- The Census Bureau cannot release any identifiable information about individuals, households, or businesses even to law enforcement agencies. (Title 13 of the U.S. Code)
- Census information can only be released after 72 years. (Title 44 of the U.S. Code)
- All U.S. Census Bureau staff take a lifetime oath to protect your personal information, and any violations come with a penalty of up to \$250,000 and/or up to 5 years of prison.
- A Census worker will never ask for donations or money, a full social security number, any type of funds on behalf of a political party, your mother's maiden name, credit card numbers, or full bank account numbers.
- Census workers have a Census Bureau I.D. badge with name, photo, Department of Commerce watermark, and date of expiration.

Verbal
Communication

Sample Parent Letter

Date

Dear Parent/Guardian:

Written Communication
Template

I am writing to share very important information about an event that will take place in Spring 2020: the U.S. Census. The census is a count of all people living in the U.S. and takes place every 10 years. It is simple and confidential to complete. For the first time, you can respond online. You will receive a unique identifying number in the mail, which will allow you to fill out the online form beginning in March 2020. It will ask questions about your household such as how many people reside in your home, date of birth, race, and sex. Here are some things you should know:

Your identity remains anonymous. Any personal information you provide on the census form is protected by law and cannot be shared with anyone or any other federal agency. Regardless of your immigration status, the information cannot be used against you or to invade the privacy of you or any members of your family.

The Census is important. The Census is important because it helps to decide how much federal money our schools will get over the next ten years, and how much money our state will get for our parks, neighborhood improvements, public health, transportation, and many other programs and services.

The Census is safe. All the data collected through the census is protected under Title 13 of the U.S. Code. Records are confidential for 72 years by law. All U.S. Census Bureau employees swear a lifetime oath to protect respondent information. The U.S. Census will never share a respondent's personal information with other government agencies. Data is only released in summary tables; no individual records are released. The penalty for wrongful disclosure is up to 5 years imprisonment and/or a fine of \$250,000.

What do you need to do? Complete the short and easy form online. If you don't have a computer at home, you can use one at a library or at a location in your community clearly identified Census Questionnaire Assistance Center.

Your kids count, so make sure to count them when you fill out the census form in Spring 2020!

Sincerely,
XXXXXXX, Principal

Sample Scripts for Text Messaging

If your school uses the Remind App or any other text messaging tool to communicate with parents/students, use this tool to help craft text messages. Follow the Census Timeline and suggested Activities on Page 4.

Written Communication
Template

Sample Text 1	Welcome back from Thanksgiving break. This is a reminder that the census will be taking place starting in March. You will receive a postcard detailing how you can safely and confidentially complete your form online or request a paper form. Remember to count everyone in your house, including young children. Learn more at www.californiacensus.org .
Sample Text 2	The census is coming in Spring 2020. Come out and support the activities to raise awareness about the importance of participating the census during Census Week [insert dates of Census week here]. There will be a rally on ____ & we will have Questionnaire Assistance Centers (QAC) open to complete the Census form (open time) am until (closing time) pm. Click here to find a QAC near you. [insert link to find a QAC]
Sample Text 3	We hope you made it out to a Census Week event! Remember, our students are counting on you to be counted. You can complete the form online until April 30. Be counted!
Sample Text 4	The deadline to complete the online Census form is April 30. Come by the school and complete your form between (open time) and (close time) at the Census Questionnaire Assistance Center, located at _____. See you soon!

Sample Board Resolution for "2020 Census in Schools Week"

This tool will assist your school board with preparing a comprehensive resolution with essential Census 2020 information and its relevance to your school.

Board Resolution
Template

WHEREAS, the decennial census takes place every 10 years to count the residents of each state and help identify where to allocate over \$675 billion in federal funds to states; and

WHEREAS, the 2020 Census will determine the number of representatives California has in the U.S. House of Representatives and the number of votes we have in the Electoral College. Your information will also be used to redraw State Assembly and Senate boundaries. Participating in the 2020 Census ensures that you and your communities have fair representation.

WHEREAS, an accurate census count is critical to the well-being of every community in determining where services are most needed, and to provide important federal and state funds for school districts; and

WHEREAS, it is vital for all local superintendents, principals, teachers and parent organizations to relay the importance of the census to families and community members to ensure everyone is counted, therefore maximizing political representation and funding appropriations within our school district and county; and

WHEREAS, *(School District/County Office of Education)* invites schools to dedicate a week during January 2020 through March 2020 as "Census in Schools Week," to help reinforce the importance of participation in the census; and

WHEREAS, *(School District/County Office of Education)* encourages all schools, especially Title I schools with large Title III populations, to coordinate with their Local Regional Program Managers on the best practices to implement outreach strategies that schools can incorporate to ensure they have the most complete and accurate count of their surrounding residents; and

WHEREAS, *(School District/County Office of Education)* supports the goals and ideals for the 2020 Census and will lend its support to the education community in being responsive to federal and state census liaisons;

NOW, THEREFORE, BE IT RESOLVED that *(School District/County Office of Education)* recognizes the long-term effects of an accurate and complete census count for garnering much-needed resources for our state; and

BE IT FURTHER RESOLVED that we stand with all students, families, school districts and County Offices of Education to be counted on the official Census Day of April 1, 2020.

PRESS RELEASE

STUDENTS AT {SCHOOL/SCHOOL DISTRICT} LEARN THE IMPORTANCE OF THE 2020 CENSUS

(District/County) announces a partnership with California Complete Count-Census 2020 Office and the use of California Census Schools-Based Outreach tool *Count Me In, Students Count* to help students Kindergarten through twelfth grade learn about the importance of census participation. Participating schools will use the occasion of the decennial census to encourage students to share information about participating in the census with their parents or guardians.

"We are excited to bring the program to (County, District) students," stated (NAME AND TITLE SUPERINTENDENT/PRINCIPAL). "Educators are vital to ensuring an accurate count, and therefore a successful 2020 Census. There are more than \$675 billion allocated in federal funding and awarded based on census counts. These funds affect not only education, but where new businesses are developed, school locations, and housing for the elderly. California schools receive over \$7 billion to support programs such as afterschool, school nutrition, and special education.

"California is determined to achieve a complete census count, where every Californian is counted. We've started early and are committing more resources than any other state to a robust outreach and engagement effort to reach all Californians," said Ditas Katague, Director California Complete Count – Census 2020.

The state has worked with California's teachers to develop curriculum made for and by California teachers. "*The Count Me In* program offers an easy way to share census information with kids and parents," said {INSERT TEACHER/ PRINCIPAL}.

"We are thrilled students at {INSERT SCHOOL/DISTRICT} are learning the importance of the census and playing an active role in their community."

Public Service Announcement

This tool is to help you draft a Public Service Announcement (PSA)-- a brief statement released free of charge by media outlets. This will help raise awareness about Census and help influence the public to complete their Census questionnaires.

Written Communication
Template

Public Service Announcement Example

Census data are used to determine each state's Congressional seats and to disburse more than \$675 million in federal funds to local, state, and tribal governments each year. Census data supports decisions about which community services to provide. The 2020 Census is the first online census questionnaire. The census site is safe and confidential. The Census has 10 questions. Families, parents, and friends can complete the online Census Questionnaire from March 12, 2020, up until July 2020 by mail, by phone and online.

4 Ways to Complete

K-12 Schools Census Outreach Resources

What Every Parent Needs to Know

Use this tool to help educate parents about Census and to encourage their participation.

Educational Tool

Census data is used to fund federal programs for schools. In California, over \$7 billion in federal funding supports school programs such as: school nutrition, after school, special education, English Language Learners, Native American students, farm workers, youth experiencing homeless, and Head Start programs.

_____ school district receives _____ dollars in
FY 2019-2020 Title I Part A Federal funds alone!

<https://www.cde.ca.gov/fg/fo/r14/title1pa19result.asp>

Your participation matters. Counting all children, even those in preschool, is essential for California's schools to receive their fair amount of funding.

The Census is Safe

Under Title 13 of the U.S. Code, the Census Bureau cannot release any identifiable information about individuals, households, or businesses even to law enforcement agencies.

Your responses to the 2020 Census are safe, secure, and protected by federal law. Your answers can only be used to produce statistics- these cannot be used against you!

All U.S. Census bureau staff take a lifetime oath to protect your personal information and any violation comes with a penalty of up to 5 years in prison and/or a \$250,000 fine. This is the law.

First Digital Online Census

There are 12 languages available by phone

Census never asks for:

- Credit card numbers
- Your immigration status
- Your money

Final postcards mailed before an in-person follow-up

Three Ways To Complete the Census

MAIL: Request a paper Census form in English or Spanish that can be mailed back to the U.S. Census Bureau.

PHONE: The Census can be completed by phone in 13 languages.

ONLINE: For the first time, the Census form will be available to complete online in 13 languages.

Your 2020 Census data is safe, protected and confidential. California is committed to ensuring a complete and accurate count of all Californians on April 1, 2020.

El Censo se va a realizar en 2020

El siguiente Censo será en la primavera del 2020. Asegurémonos de que se cuenten todos los californianos para que tengamos recursos en nuestras comunidades que nos ayuden a:

**CONSTRUIR MEJORES
CARRETERAS Y ESCUELAS**

**FINANCIAR PROGRAMAS COMUNITARIOS PARA
PERSONAS MAYORES, NIÑOS Y FAMILIAS**

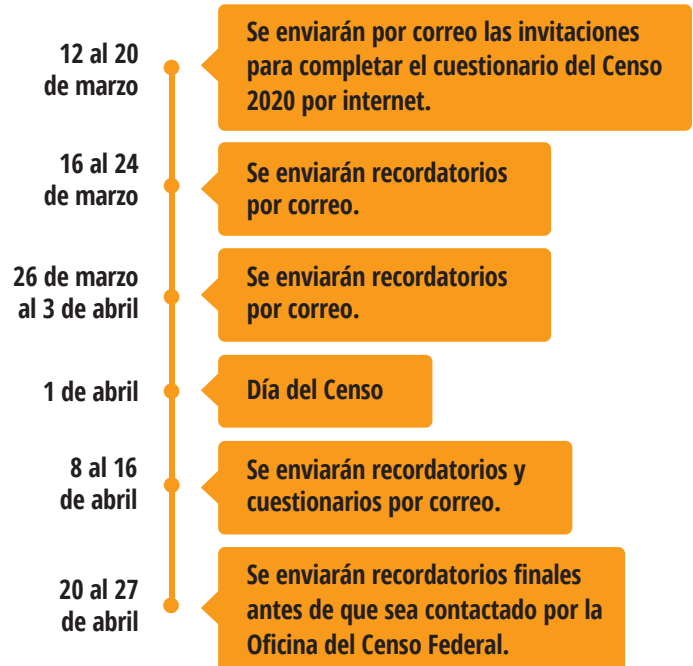

CREAR TRABAJOS

MEJORAR VIVIENDAS

Mediados de marzo del 2020, cada hogar recibirá una carta por correo. La carta le explicará las diferentes maneras en que puede responder al Censo. Si usted no recibe la carta, aún puede participar en el Censo en línea. Asegúrese de incluir a todas las personas que vivan en su hogar, ya sean familiares o no.

Fechas clave del Censo

Formas de Responder

POR CORREO: Solicite un cuestionario impreso del Censo en inglés o en español, que se debe regresar a la Oficina del Censo de EE. UU. por correo.

POR TELÉFONO: El Censo puede contestarse por teléfono. Estará disponible en 13 idiomas.

EN LÍNEA: Por primera vez, el cuestionario se puede contestar en línea. Estará disponible en 13 idiomas.

Sus respuestas al Censo 2020 serán protegidas y confidenciales.

San Bernardino County

Superintendent of Schools

Ted Alejandre
County Superintendent

Transforming lives through education

February 14, 2020

Dear San Bernardino County Superintendent of Schools (SBCSS) Staff,

Please join us in getting the word out about Census 2020 to ensure students, families, and communities in San Bernardino County get their fair share of federal resources. Census numbers are used to determine funding formulas for more than 70 federally funded programs, including education, that benefit San Bernardino County and especially our most vulnerable residents.

For every Californian not counted during Census 2020, California is expected to lose approximately \$1,950 per person, per year, for the next 10 years in federal funding. According to the Census 2020 California Hard-to-Count Fact Sheet (San Bernardino County Region 7), 47 percent of the county's population is considered hard to count and this equates to an estimated loss of \$19.4 billion in federal funding over a 10-year period. There is also a possibility of losing U.S. Congressional representation which will have a negative impact on California. We can't afford to lose vital federal resources and representation that supports our children from cradle to career!

Together we count and encourage staff to:

- Share Census 2020 information with students, parents, caregivers, and the community during Census 2020 Week, March 30 through April 3.
- Contact the Intergovernmental Relations Department at IGR@sbcss.net or call 909.386.2947 for Census 2020 materials to distribute.
- Wear the Census 2020 "I Count" button.
- Promote our three Questionnaire Assistance Kiosks which will be activated on March 12 for public use at the following SBCSS sites:
 - Roy C Hill Education Center, 601 North E Street, San Bernardino, 92415
 - Desert/Mountain Educational Service Center, 17800 Highway 18, Apple Valley, 92307
 - West End Educational Service Center, 8265 Aspen Avenue, Rancho Cucamonga, 91730

When each of us takes part in our civic duty then together we can make a positive impact on our students, schools, and communities for the next decade!

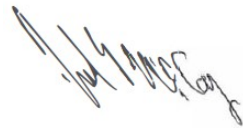

Sincerely,

Ted Alejandre
County Superintendent

Yvonne Molles
