### Narrative Report

- 1) List your goal(s) and objectives as it appears in your strategic and implementation plan. What and how did you revise the objectives due to COVID-19 and the US Census Bureau's operational adjustments?
  - a. Kings County's Main Goal was to ensure that all persons as well as the Hard-to-Count communities are informed and counted in the 2020 Census. Our objectives were as follows:
    - o Identify Those Hard to Count Community and Areas
    - o Identify Gaps from Initial Outreach to Main Outreach
    - o Ensure that Those Outreach efforts are reaching all not just the Hard to Count But all the communities within Kings County
    - o Increase and Educate those Hard to Count Population about the importance of the 2020 Census
    - o Work with CBOs and County Subcommittees to spread more information and awareness of the 2020 Census
  - b. Due to the COVID-19 pandemic, we were not able to hold our major outreach events in our Hard to Count Communities like Kettleman City, Stratford, Avenal, Armona, and Home Garden. These communities require more hands on and personable outreach for information. Because of the State and County order of Shelter-in-Place, we had to readapt to more social media and more old-fashion outreach like flyers and banners and paper goods. Our Outreach and Goals did not change but our tactics adapted to the severity of the pandemic as well as the wild fires around our neighboring Counties

Due Date: November 16, 2020

- 2) Reflecting on your own operations and outreach strategies throughout the campaign, please provide a response with specific examples for the following questions. Please also indicate which timeframe you are referring to in your response (i.e., education, NRFU period).

Contracted partner's operations – Proteus, INC (February 1, 2020 to June 30, 2020)

What worked well operationally?

Pre-COVID19

- a. The operation of having Proteus be the sole subcontractor was to utilize their mobile bus unit and have Proteus go out and be the trusted messenger on the ground. By being the only outreach source for the county, we relied on Proteus to reach the hard to count communities and attend all events in Kings County when requested and to bring along the bus as an added show for the importance of the Census.

During COVID19

- b. The Mobile unit became a resource that no longer complied with our County of Kings Covid-19 guidelines for community gatherings, and we experienced difficulty in scheduling the unit while other larger counties sought the same resource and competed with greater financial resources. Therefore, we adapted our outreach approach and shifted Proteus resources to phone banking and non-contact delivery of daily flyer runs to all the local shops and places that were open. This approach continued with Proteus through June 30, 2020 and served as our only contracted outreach service provider.

What hindered the operations?

The societal restrictions related to Covid-19 directly prevented in person outreach efforts, and therefore rendered the Mobile Unit as an unusable resource. With Proteus Inc. as our sole contractor and with outreach services tied to the mobile unit, the contractual services agreement had to be re-defined. Contract resources were then shifted to phone banking and flyer delivery.

Contracted partner's outreach – Valley Voices (September 1, 2020- September 30, 2020)

What outreach tactics worked well?

During COVID19

- a. Kings County had just moved from Purple Tier to RED Tier at the beginning of September and businesses and shops were slowly re-opening. With our services contract completed with Proteus Inc. and extra funding provided by the State, we had an opportunity to collaborate with another local community based organization Valley Voices to engage local businesses for expanded outreach, and start the NO-CONTACT Door to Door information drop-off. Valley Voices is a fairly new CBO and presented an enthusiastic outreach approach to help our community outreach. They went door to door to hand out door hangers and had tablets ready for those for those wanting to self-respond. The State provided personal protection supplies came in time to completely outfit all volunteers and outreach providers. They set up booths at hard to count community events like the flea market

and COVID 19 testing centers as well as continuing to carry out phone banking in days that they were not able to leave their homes.

What hindered the outreach?

The limited amount of time to deploy these this new resource and available community outreach opportunities remained the biggest hindrance from reaching HTC populations. Valley Voices adapted by responding quickly to participating at local community events available to them, but the timing and Covid-19 societal limitations remained a challenge.

- 3) Describe challenges and changes occurring outside or within your organization / agency that had an impact on the outreach work. Describe how you responded to these changes to work toward achieving a complete count.
  - a. With the COVID19 pandemic and the Wildfires within the valley, those challenges became very impactful to our outreach. We slightly changed tactics from physical interactions to phone interactions. The transition was smooth but it was harder to keep track and update the data for outreach. It became more hands off and so there was not much control in how data was being collected. In addition, the County's staff devoted to Census Outreach were still operating in office continuously throughout the Covid-19 pandemic and were experiencing increased daily workloads from primary land use permitting responsibilities.
- 4) For county and ACBO partners, what was the county (or region's) 2010 response rate and what was the 2020 response rate? If the response rate met and exceeded the 2010 response rate, what contributed to that? If it did not meet the 2010 response rate, what were some of the challenges for that? For other partners, please note what data you used and how you used data for your strategies.

**67.1%**                      **64.1%**  
Self-response as of 10/17    2010 final self-response

- Kings County was successful in exceeding our previous 2010 Self-response rate by 3%. We believe the response was due in large to the continuous efforts by Kings County to seek out and partner with local groups to engage residents. Our partnerships with Valley Voices and Kings Community Action Organization held strong throughout the last month of response time which we fully believe contributed to the successful increase in response. Specific Tract response rate data was used to monitor and evaluate performance trends and adjust targeted strategies for outreach.
- 
- Our outreach teams during the nonresponse follow up time was significant and made progress due to in-person interactions with the public then had been occurring during the majority of the Pandemic months.

Source: <https://www.censushardtocompmaps2020.us/?latlng=36.14065%2C-119.76334&z=10&query=coordinates%3A%3A36.11791%2C-119.82101&promotedfeaturetype=counties&arp=arpRaceEthnicity&baselayerstate=5&rtYear=sR2020latest&infotab=info-rtselfresponse&filterQuery=false&searchbox=searchcounty&searchval=Kings%20County%2C%20California>

5) Please describe the process and results of your partnership coordination and how it educated and motivated the hard-to-count populations to complete the Census questionnaire.

- a. In order for our small but mighty county to work efficiently, we created a Complete Count Committee consisting of Community Based Organizations and local governmental agencies as well as individuals who wanted to be part of the Census outreach process. Going into the Main outreach period for our County, we relied on our one and only subcontractor, Proteus Inc. to do the main outreach during the Self-Response Period beginning from February to June of 2020. Proteus was in charge of community outreach and attendance at all events that were supposed to happen in the County. Although we had a great relationship with Proteus, the partnership was not as expected in regards to the loss of the mobile unit and the lack of initiated outreach. The Committee wanted to rely on Proteus to take lead on the outreach but what ultimately happened was that County staff took lead in the majority of outreach efforts and Proteus implemented what was directed too them.

The County experienced enhanced response results once the County was allowed to open for business and partner with a new CBO during the Non-response follow up period. Valley Voices was brought on as a new sub-contractor and they set up booths at local events and venues like the local Monday flea market. They were well organized and self-initiators who conducted thorough neighborhood canvassing and outreach to local businesses. During this time, Census response from unincorporated Latino populated communities seemed hesitant to engage and participate. The Valley Voices team being bilingual, made great strides in building community trust and gaining more resident participation in filling out the questionnaire. Their verbal in person reassurance that the Census information is confidential, fostered greater trust in the community. The County believes that these new partnerships during the last phase of Census response were crucial to surpassing the 2010 Self Response Rate and resulting in 3% increase.

6) Please provide a list of key partners and describe their contributions of how they made a difference in your outreach efforts.

- a. Valley Voices – a CBO with a group of younger individuals directly from the County to help better the Community they live in. They were our CBO contract during the NRFU period and they did a fantastic job communicating and connect with our Hard to Count populations in targeted low response Tracts. They performed duties like placing Door-to Door hangers, setting up booths at various venues and Covid19 Testing areas, and collaborating with local businesses to place posters and information about the Census. They became a great influence on the effectiveness of the self-response rate.
- b. Kings Community Action Organization – a CBO that has been a long time organization serving the low income community was already carrying out Census outreach and effectively joined forces with the County for greater collaboration and partnership at events. Their operation was primarily a single one man point of contact carrying out many Census outreach efforts.

- Ivan Pagan, brought his enthusiasm and charisma to every event he participated at and kept in constant contact with County staff to coordinate efforts. As a result, we were able to more effectively deploy the resources we had and get them into the hands of the community. He participated in all the Food distribution events and gave out information, flyers, and swag for all who attended. These food distribution events were a great outlet to reach those hard to count communities because they were already engaging HTC populations. Ivan worked hard to communicate with the public and lend support to the public on how to complete the Census questionnaire. His personable approach directly helped to boost our Census outreach efforts and became a consistent fixture during food distributions.
- c. Kings County Office of Education. – A Governmental agency that has connection to all school districts throughout the County was instrumental in carrying out outreach through the schools and students. Todd Barlow, Superintendent of Schools, and his Assistant Cathy Marroquin enhanced our overall County outreach by coordinating and integrating outreach through the various schools. They were instrumental in distributing flyers to the students, through school lunch drive through, and posting information on their website. Our partnership with the Office of Education expanded our outreach through schools, families and children, who all helped to make a difference in our Census response.
  - d. Kings County Human Services Agency – a County governmental agency that serves some of the most vulnerable populations, provided great collaboration to help get the word out with their clients. During the pandemic, HSA was the main agency working with Project Room Key for transitional housing for the homeless population, and they made it a priority to integrate Census outreach messaging in their operations. Because the US Census's operations were either continuously delayed or not operating for group quarter enumerations, our HSA made it a key point to make sure all those in Kings County were counted as a part of Kings County.
  - e. Proteus Inc. – a CBO that was our very first subcontractor. Proteus worked continuously with our county for many decades, and provides direct service to HTC populations. In the beginning of the outreach, Proteus made strides to engage their community audience, the Latino Community. They pushed out flyers and information for all the hard to count communities in Kings County like in Kettleman City and Stratford. Proteus set up booths outside local convenience stores and local areas to attract more attention to census outreach. After the shelter –in-place order, however, Proteus moved outreach efforts to phone banking and limited in person outreach.
- 7) Please describe how you provided accessible and in-language outreach activities, including how you ensured equal and meaningful access to limited English proficient individuals and people with disabilities?
- a. All flyers and information were prepared in both English and Spanish, and all contracted outreach staff were bilingual or had a bilingual staff on hand.

- b. Kings County did not have a mandated language requirement, but we are aware that we do have a large Latino community, so that is why we did all flyers advertisements in English and in Spanish.
- 8) Please share a story(s) of how your work has made a difference to Census 2020 and the impact on the community. Please include images and quotes, so we are able to understand the narrative behind the numbers.
- Census in Kings County has made our local Headline in the Local News Papers 4 Time:

**Census effect finish strong in Kings Co0unty:**

**Make Kings County Count:** [https://hanfordsentinel.com/community/make-kings-county-count/article\\_8dc5f3d5-f5e9-551e-aadc-75ceb339c6cb.html](https://hanfordsentinel.com/community/make-kings-county-count/article_8dc5f3d5-f5e9-551e-aadc-75ceb339c6cb.html)

All four of these articles represent and explain the great partnerships and collaborative effort that has been fostered through this outreach effort with our community and its organizations.

- 9) Please add any suggestions for the 2030 Census efforts, including timelines.
- a. This year was trying due to the pandemic and wildfire situation in CA. There was nothing we would have done to prevent this global hearth crisis and a state of emergency. Some suggestions would be to keep a folder of ideas that previous census years have done as there is no point in re-creating the wheel. The success of these efforts was due in large to the commitment of local organizations and the adaptability of staff to change approaches as societal circumstances changed.

## Attachments

---

- 10) Please confirm that you have submitted the following which will help us better understand the full breadth of the Census work and achievements.
- a) SwORD uploads of completed activities (see attached)
  - b) Updated list of subcontractors
    - a. Proteus Inc.
    - b. Valley Voices
  - c) Evaluations or analytical reports, if any

- d) Sample products\* (See attached Census Outreach Materials flyers)
  - a. Pens, Disc Fans, T-shirts for Volunteers and Workers, Shopping Bags, Stickers, Notepads. Etc.

# DO YOUR PART TO HELP OUT OUR COMMUNITY

## 2020 CENSUS

*Fill out the 2020 census questionnaire*

The 2020 census count is already underway and your participation helps us to maintain funding support for many important programs and services throughout our community. Some of these important programs for our schools, students, and families include:

- Special education, Head Start, after school programs, classroom technology
- Food assistance including free and reduced school lunch
- Maternal and child healthcare programs including WIC

# HAGA SU PARTE PARA AYUDAR A NUESTRA COMUNIDAD

## 2020 CENSO

*Complete el Cuestionario del Censo 2020*

El recuento del censo de 2020 ya está en marcha y su participación nos ayuda a mantener el apoyo financiero para muchos programas y servicios importantes en toda nuestra comunidad. Algunos de estos programas importantes para nuestras escuelas, estudiantes y familias incluyen:

- Educación especial, Head Start, programas extracurriculares, tecnología en el aula
- Asistencia alimentaria que incluye almuerzo escolar gratuito y reducido
- Programas de salud materno-infantil, incluido WIC

\* Or Call 2-1-1 or <http://www.211kingscounty.org/2020census>

# Census Day is April 1st 2020

## How we in Kings County did P.O. Box Mailing:

EDDM – Every Door Direct Mail from the USPS is a great tool to utilize if you are trying to reach those hard to count P.O. boxes that will not be receiving U.S Census information and questionnaire directly.

Your County or organization would need to create a flyer or postcard or information guide for the USPS to deliver. With EDDM you do not need specific addresses listed or labeled. If you go to:

[https://www.usps.com/business/every-door-direct-mail.htm?utm\\_medium=search&utm\\_source=google&utm\\_campaign=eddmevergreen20&utm\\_content=e030\\_21eg&gclid=Cj0KCQjwncT1BRDhARIsAOQF9LlaRi\\_ho8Tgcgum2QH4J5Olwcx-92KOKIL8CZqwhOZWTqHQH7qhmgEaAnwdEALw\\_wcB&gclsrc=aw.ds](https://www.usps.com/business/every-door-direct-mail.htm?utm_medium=search&utm_source=google&utm_campaign=eddmevergreen20&utm_content=e030_21eg&gclid=Cj0KCQjwncT1BRDhARIsAOQF9LlaRi_ho8Tgcgum2QH4J5Olwcx-92KOKIL8CZqwhOZWTqHQH7qhmgEaAnwdEALw_wcB&gclsrc=aw.ds)

This link will get you to the EDDM website.

Utilized the EDDM Online Tool and then a map should pop up.

Type in the Zip Code you would like to target and then it should zoom to said zip code and then show you the USPS mailing routes.

There will be a tab that says “Show Table” you would want to click on that. It will drop down and give you a list of all the routes.

What you are specifically looking for is “**PBOX**”. Those are the number of P.O.Boxes that are available at that specific Zip code you searched for.

Once you click on the PBOX line there will be an approximate cost on the right site for POSTAGE.

Now this cost will only be for postage and not the actual printing of your flyers/postcard and the banding of the materials. These cost will be separate from the postage cost.

If you would like to utilize a Printing service that does EDDM regularly there is another tab “Find a Printer”.

This Tab will help you located printing services near you that does EDDM Printing and banding.

As a reminder, if you have any questions in specific to EDDM or USPS services I would highly recommend contacting the Postmaster General of that area to get better clarification.

In Kings County, we utilize this service for all of our unincorporated areas that had P.O.Boxes. If you would like me to help you with the basics, you can contact me at [kao.yang@co.kings.ca.us](mailto:kao.yang@co.kings.ca.us) or (559) 852-2673.

# Kings County 2020 Census

## **WHY IS THE U.S. CENSUS IMPORTANT?**

- Builds Better Roads And Better Schools
- Funds Community Programs For Seniors, Children And Families
- Create Jobs And Improve Housing.
- Determines How Many Representatives Each State Gets In Congress And Is Used To Redraw District Boundaries
